Informed Consent: Technologies Teacher Education Trends

GU Ref No: 2019/1037

This research has been commissioned by the Australian Technologies Teacher Education network and is being led by:

Jason Zagami (Griffith University) (Lead Researcher) j.zagami@griffith.edu.au

and a team of 24 researchers, members of the Technologies Teacher Education Network

The research aims to address three research questions:

1. What are the most pressing challenges in Technologies Teacher Education?
2. What are the most significant emerging trends in Technologies Teacher Education? and
3. What are the best resources for Technologies Teacher Education?

The purpose of the research is to inform teacher education, stakeholders of the challenges, trends and resources currently most prevalent in Technologies Initial Teacher Education.

Your research participation will include the contribution of options and ranking of challenges, trends and resources in Technologies Initial Teacher Education.

Risks to participation is limited to the public representation of the consensus derived by all participants. All contributions and voting during the research process will be de-identified to other participants, and if you decide not to be included as an author of the final report, no identification of your involvement will be public.

By contributing options and voting on these options, you acknowledge that your contributions may be used in research into Technologies Teacher Education Trends and that your contribution will form part of a group consensus, and that this consensus may be attributed to you as a contributing author in published research.

The conduct of this research involves the collection, access and use of your identified personal information for publication attribution purposes - name, email and institutional

affiliation. This identified personal information is confidential until publication, accessible only to the lead researcher and research assistants, and will not be disclosed to third parties without your consent, except to meet government, legal or other regulatory authority requirements. Personal information will be deleted once the report is produced. All other project data will be de-identified and securely stored permanently in an online open data repository, a copy of this data will also be made publicly available with journal publication and may be used for other research purposes. However, your anonymity will at all times be safeguarded, except where you have consented otherwise. For further information consult the University's Privacy Plan at

http://www.griffith.edu.au/about-griffith/plans-publications/griffith-university-privacy-plan or telephone (07) 37354375.

Participants can access a plain-language summary of research results at any time from http://www.allourideas.org/

All contributions will remain publicly accessible and research publications and reports resulting from the research accessible through a project website.

Griffith University, as the research organisation of the lead researcher for the project, conducts research in accordance with the *National Statement on Ethical Conduct in Human Research*. If potential participants have any concerns or complaints about the ethical conduct of the research project they should contact the Manager, Research Ethics on (07) 37354375 or research-ethics@griffith.edu.au

By submitting contributions to the project via the online research tool allourideas, voting on contributions, or participating in the draft publication refinement process, you confirm that you have read and understood the information above and in particular have noted that:

- You understand that your involvement in this research may include submission of ideas to the online research tool allourideas, voting on these ideas, and participating in a draft publication refinement process;

- You have had any questions answered to your satisfaction;

- You understand the risks involved;

- You understand that there will be no direct benefit to you from your participation in this research;

- You understand that de-identified data from this project will be made publicly available;

- You understand that your participation in this research is voluntary;

- You understand that if you have any additional questions you can contact the research team;

- You understand that you are free to withdraw at any time, without explanation or penalty; Please contact j.zagami@griffith.edu.au to withdraw from the project.

- You understand that you can contact the Manager, Research Ethics, at Griffith University Human Research Ethics Committee on 07 37354375 (or research-ethics@griffith.edu.au) if you have any concerns about the ethical conduct of the project citing GU Ref No: 2018/TBA; and

- you agree to participate in the project.
