Hello DA Michael Graveley,

My name is **INSERT NAME** from **CITY, STATE.**

I am urging you to enact increased charges and convictions for abusers victimizing women in Kenosha County. According to a [2018 report from the UN](#), women killed by intimate partners or family members account for 58% of all female homicide victims reported globally.

I am reaching out because I want justice for Dori, and the many other victims she represents. More information on what has happened to her and her abuser can be found in this [Kenosha News article](#).

This is the second incident where Nicholas Mercier has caused bodily harm to a female victim. His lack of remorse, so much that he created a joke out of his crime, is a direct reflection of the lack of punishment he has received. Holding him on a \$3000 bond is not enough. He should not be allowed to walk the streets, further traumatizing his victims.

In order for Dori to receive justice and begin to heal and in the interest of the rest of Kenosha County's domestic violence victims, we ask that you re-charge Mercier and greatly increase his bond.

I hope you will take this step forward to hold abusers accountable and allow victims to feel safe again. You cannot wait until a victim has lost their life, you must act now.

Thank you,
