

ST Math

1. Go to: stmath.com or click on the gigi icon on a device after downloading the app
2. Click on the **HOMEWORK** button
3. Your child will type in their picture password *or* their text login (username and password)
4. Begin assignment

Students can work through the syllabus at their pace. This is a problem solving website. **Please do not ever tell your child the correct answer**. Help them to discover this themselves by asking them guided questions. Have them show you what they have already tried and guide them to the solution through questions. Such as:

- **Have you tried...?**
- **What else can you try?**
- **Show me what you have tried.**
- **Hmm... if _____ then maybe _____.**
- **What do you think GiGi wants you to do?**
- **Etc.**
