COMPREHENSION

6. Read the passage and answer the questions below.

In the past people used to eat raw food. As years went on, they discovered fire by friction between sticks. This helped them to burn things and roast meat. As the years went by, new methods were discovered such as the use of match boxes. Nowadays people are using different kinds of cookers such as kerosene cooker, gas cooker and charcoal cooker. Fire also can be obtained from electricity. This is done in urban areas. Fire has negative effects if not properly used. It can burn buildings and machines. People lose their property due to fire.
