

Ocean Practices OBPS Workshop VI 05 -19 October 2022

Decision Trees for Best Practices

Date:: Thu 13 Oct 2022, 14:00 - 16:00 UTC

Time Zones: 7:00-9:00am PDT, 3:00-5:00pm BST

The goals of this working session are to introduce the community to the Decision Tree Task team, engage with the community in the use of decision trees as tools to accompany or coincide with best practices and to examine decision trees in relation to the communities own purpose or application. The first hour of the session will include a presentation introducing the decision tree task team and the review of example decision trees being actively developed by the OASIS and RVTEC best practices working groups. The second hour of the session will include an interactive discussion to determine current and potential use of decision trees as tools in best practice development and to solicit community feedback on the example templates provided.
