

Inclement Weather Asynchronous Days:

South Gibson Families:

The Indiana Department of Education (IDOE) made a decision that a school corporation can only use 3 asynchronous eLearning Days for the 2022-2023 school year. They will no longer waive inclement weather days as they did previously.

The inclement weather season has arrived. We plan to use the following format for up to 3 snow days.

These asynchronous eLearning Days procedures are:

1. Assignments will be provided the day before the event possibly or via electronic format by 9 a.m. the day of the event. Teachers use a variety of electronic options including email to communicate with parents. Teachers should use the means they normally use.
2. The assignments will be due one calendar week (7 days) from the date of the event. The work replaces the work for the scheduled day missed. Students are counted absent if no evidence of work is submitted. Work should be in line with the curriculum being studied.
3. Teachers will be available via email 9:00-2:30 to answer questions the day of the event.
4. Students that need assistance or those that have limited internet access and need lab time, may request it upon return to school through the Principal.
