

**Lake Forest High School District 115
Lake Forest Elementary School District 67**

Daniel Mortensen
Director of Facilities

July 24, 2025

Dear Lake Forest School District 67 and 115 Parents and Staff,

This letter serves as an annual notification that the required Asbestos Hazard Emergency Response Act (AHERA) for all the Lake Forest Districts 67 and 115 schools.

AHERA Act

Every six months, Districts 67 and 115 re-inspect these schools to comply with the AHERA Act. Findings show that safe conditions exist in our facilities.

Operations and maintenance programs are in place. Camplin Environmental Services provides accredited asbestos inspectors to re-inspect these schools. We work with this consultant to ensure that our program is thorough and up to date. We monitor our facilities to maintain this safety standard.

The six-month re-inspections are a continual maintenance item. The most recent 3-year inspection or any of the 6-month reports are available from the Director of Facilities, located at the District Office.

Respectfully,

Daniel Mortensen, CPMM

Director of Facilities, District 67 and 115
