## Accessibility Plan 2025-28

### Reviewed from 2022-25

#### Section 1: Vision statement

All schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to ensure we meet the needs of pupils and their families.

You are classed as disabled under the Equality Act 2010 if you have a 'physical or mental impairment that has a 'substantial' and 'long-term' negative effect on your ability to do normal daily activities'.

It is our aim to meet and exceed the requirements of the Act wherever possible. As a school we are committed to providing a fully accessible environment which values and includes all students, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are also dedicated to challenging negative attitudes towards disability and accessibility and to developing a culture of awareness, tolerance and inclusion.

Our SEND Report outlines what we as a school can provide for children who have special educational needs and disabilities. And how we will always include reasonable adjustments to ensure all children can access the curriculum, school activities and events.

#### Section 2: Coordination of the Accessibility Plan:

The Accessibility Plan coordinators are as follows:

- Head Teacher - [Kerry Devane](#)
- SENCO - Becky Maisey
- Finance Officer - Nicoletta Dodd.

The Co-ordinators:

- seek advice from those professional advisors deemed appropriate e.g. Somerset's Inclusion Line, or the children with disabilities team
- review the school's policies, procedures and facilities annually to maximise accessibility for those pupils with additional needs.
- make recommendations to improve accessibility.
- ensure that the accessibility plan is prepared and then made available to all staff and parents of existing students. This may be done through staff meetings, school newsletters and the school website. A copy is available on the school website.

This plan was drawn up by: Rebecca Maisey (SENCO) in consultation with staff and governors.

Approved by: Claire Weymouth (Chair of Governors)

Date: Dec 2025

Next review date: Dec 2028

### Section 3: Aims

At St John's Infants School we plan, over time, to increase the accessibility of provision for all students, staff and visitors to the school. The Accessibility Plan contains relevant actions to:

- Improve access to the physical environment of the school. This may include improvements to the physical environment and physical aids to access education.
- Increase access to the curriculum for students with a disability, expanding the curriculum as necessary to ensure that pupils with a disability are as prepared for life as the able-bodied pupils. This covers learning, teaching and the wider curriculum of the school, such as participation in after-school clubs, leisure and cultural activities or school visits. It also covers the provision of specialist aids and equipment, which may assist these pupils in accessing the curriculum.
- Improve the delivery of written information to pupils, staff, parents and visitors with disabilities. Examples might include handouts, timetables, textbooks and information about school events. The information will be made available in various preferred formats within a reasonable time frame.

Children joining St John's who are identified as having a physical disability or significant medical needs will be assessed by appropriately qualified staff and, where necessary, external professionals. Following this assessment, a personalised **School Entry Plan** will be created in collaboration with the child, their family and the relevant professionals. This plan ensures that the child's day-to-day needs are supported and that they can safely access the curriculum, the school building, specialist rooms, and all activities available to other pupils.

On rare occasions, an activity or outing may not be fully suitable or a child may feel unable to take part. In such cases, an individual risk assessment will be completed and the outcome discussed with parents/carers. Wherever possible, we will aim to provide a modified or alternative activity.

Any staff members who support children in a one-to-one capacity, whether part time or full time, will receive the necessary training. This may include positive handling, SEND training, and training related to specific medical needs.

#### Section 4: Action Plans

Attached are action plans relating to these key aspects of accessibility. These plans will be reviewed and adjusted on an annual basis. New plans will be drawn up every three years. It may not be feasible to undertake some of the works during the life of this Accessibility Plan and therefore some items will roll forward into subsequent plans. The audit will need to be revisited prior to the end of each three-year plan period in order to inform the development of the new plan for the following period. The plans will be monitored by the senior leadership team, governors and staff.

#### Section 5: Relating Documentation

The Accessibility Plan should be read in conjunction with the following policies, strategies and documents:

- Curriculum
- Staff Development
- Health & Safety (including off-site safety)
- Inclusion Policy
- SEND Policy
- Behaviour Management
