

Job Announcement: Wildfire Resilient Landscapes Coordinator – Maui County

Revised April 10, 2025

HWMO is seeking a dedicated Wildfire Resilient Landscapes Coordinator focused on Maui County to drive wildfire mitigation education, planning, risk reduction learning, and projects among diverse partners. This role involves supporting large landowners, fire suppression agencies, planners, local nonprofit partners, and other key stakeholders through one-on-one assistance, coordinated group efforts, and hands-on field activities. If you are passionate about integrating education with practical wildfire resilience strategies, we invite you to join our mission.

Job Title: Wildfire Resilient Landscapes Coordinator for Maui County
Location: Maui, Hawai'i
Compensation: \$34–\$40 per hour (based on experience and qualifications)
Position Type: Regular, full-time one-year position with the possibility of renewal, contingent upon funding and performance.

For additional application information, please refer to our employment web page:
www.hwmo.org/employment

Role Overview:

- **Partner Engagement:** Collaborate closely with diverse partners—including owners and managers of large lands, fire suppression teams, planners, local nonprofit partners, and other stakeholders—to guide and support wildfire mitigation and resilient landscape initiatives.
- **Educational Outreach:** Design and deliver engaging outreach and educational presentations, workshops, and events that empower communities and stakeholders to adopt effective wildfire risk reduction practices.
- **Field Support & Site Visits:** Conduct on-site evaluations and support tailored mitigation projects through direct site visits, ensuring actionable recommendations that boost wildfire resilience.
- **Coordination & Communication:** Facilitate group meetings and coordination sessions, as well as provide one-on-one support, to help partners plan, learn, and communicate effectively around wildfire mitigation strategies.
- **Risk Reduction Planning:** Assist in the development and implementation of comprehensive wildfire mitigation plans, combining technical expertise with community-focused education to foster safer landscapes.

Key Responsibilities:

- Serve as a subject matter expert on wildfire resilient landscapes, advising partners on best practices for hazard reduction and landscape management.
- Organize and lead outreach campaigns and educational events tailored to the needs of diverse stakeholders.
- Coordinate with local agencies, community groups, and technical experts to ensure alignment on wildfire mitigation strategies.
- Provide individualized support to partners by reviewing project plans, conducting site assessments, and offering actionable recommendations.
- Foster collaborative networks among land managers, fire suppression partners, and planners through regular coordination meetings and workshops.

Qualifications:

- Demonstrated expertise in wildfire mitigation, natural resource management, or a related field, with a deep understanding of resilient landscapes.
- Strong communication and presentation skills with the ability to translate complex technical information into accessible, practical guidance.
- Experience in project management, stakeholder engagement, and facilitating multi-disciplinary coordination groups.
- Proven track record in conducting site visits, risk assessments, and organizing educational events.
- Ability to work effectively in a dynamic, team-oriented environment while independently managing projects.
- Passion for community education, wildfire risk reduction, and sustainable landscape practices.

Join HWMO as a Wildfire Resilient Landscapes Coordinator and play a vital role in protecting our communities while fostering a culture of preparedness and resilience in Maui County.
