

# Extra Large Joy Fold Blessings

Buy all your supplies for the card, [HERE](#).

This large card is a good choice if you are sending photos to someone, or just want a lot of room to write.

1. Cut 2 pieces of Flirty Flamingo 4 ½"x 11", score at 8 ¼" for each one. Glue together so you have one of the flaps coming over the front of the card from the right as shown.
2. Cut the inside DSP 4 ⅜"x 7 ⅞" and glue inside.
3. Cut the outer DSP 4 ⅜"x 8 ⅛" and glue on the outer large flap on the left.
4. Cut a piece of Crumb Cake 4 ¼" x 5 ¼" and cut the Encircled with Beauty die from the upper center of it. Fold it over the front flap, and adhere completely to the flap, inside and out.

5. Now cut a piece of the Crumb Cake to cut your medium sized Scalloped Contours Die piece as shown above. Glue to the flap on the inside as shown. Then use the white stamp pad to stamp your sentiment and the little stars. I also used a chalk white marker to make it whiter over all.

6. Stamp the small flower bunch with Calypso Coral and color in with the blending pens. Cut out with the die, and glue on as shown in the picture in step 5.
7. Stamp the front bouquet onto White cardstock with Calypso Coral, and color in, then cut out with the die, and adhere with Dimensionals as shown. I also stamped the hello with a white pad, then went over the words again with the Chalk White marker to complete.
