
Person or Subject

Concerns And Thoughts - CAT

Key Points & Areas of Concern and Thoughts

Each CAT should show the main different perspectives on the subject. There should be a separate main CAT for each subject, although many subjects can overlap.

Argument For

Why should there be a change or cause for concern? Or why should there not?

Argument Against

The direct opposite viewpoint of the Argument For.

Alternate Perspectives

Include any 3rd, 4th, nth other perspectives that could be relevant. Not every topic is an “either or” situation.

Additional Information

Any additional information or groups of pieces of information should be added to the CAT.
