

Friend E-learning

It was near the end of 2020. I was in Fourth grade and my parents and my friend Magdalena's parents had an idea...

The week of thanksgiving we had no school. Three weeks after thanksgiving week and before winter break we had to do E-learning. Two weeks after winter break we also had to do E-learning. Because it was covid and people travel for holidays, Me and my friend Magdalena were fully in person. We could not go back to school after traveling to an orange state for two weeks. The whole school, even people who are not traveling, have to do e-learning to keep us safe from covid.

The idea that my parents and my friend's parents came up with was that me, Magdalena, Ellie (Magdalena's older sister), and Caitlin (my older sister) are going to do E-learning together.

How it worked was two days, Monday and Thursday me and Caitlin went to Magdalena and Ellie's house. On Tuesday, Wednesday, and Friday Ellie and Magdalena come to my house. To travel from house to house we had to stuff our school backpacks with all of our school supplies for e-learning. Our backpacks were filled with bricks. My bag was so heavy it felt like it weighed a ton.

The first day of e-learning me and Caitlin went to Ellie and Magdalena's house. They already set up four spots each in a different room and labeled who sat where. They put all the spots where we are e-learning on the second floor. I was put in the playroom, Caitlin was in the guest room and Magdalena and Ellie were in their bedrooms. After that we started to do our school work.

At 11:30, Caitlin and Ellie went downstairs to start eating lunch. At 11:40 me and Magdalena went downstairs to eat. Magdalena and Ellie's mom made us lunch. After everyone was done we would play a game. And at 12:10 Caitlin and Ellie had to go back to school work. And twenty minutes later at 12:30 me and Magdalena had to go back

to school work. There were times I would go to see what Magdalena was doing.

The next day they were at my house. This time we were on different levels, me and Caitlin on the 2nd level and Ellie and Magdalena on the 1st level. Magdalena in the kitchen Ellie in the dining room and me and Caitlin in our bedrooms.

A couple days before this we made gingerbread houses with them. Caitlin and Ellie were doing it for a contest and me and Magdalena were doing it for fun. Mine was the worst out of the three gingerbread houses then Magdalena's and then Caitlin and Ellie's because they wanted to do the best to win the contest. I brought mine home and put it in the dining room.

During the day at my house Magdalena, Caitlin and Ellie and of course me took little bits of my gingerbread house during the day. First we picked the candies off then we broke pieces of gingerbread off then we started to break the house. At the end of the e-learning with Magdalena and Ellie the gingerbread house was distorted.

Magdalena's favorite thing that we could do that we would not be able to do if we didn't do e-learning together is we could talk to each other.
