

**CTE - Children's Literature Book Selection From  
Young Adult (YA) Novel: Research and Argument**

For this project, you need to select a young adult novel worthy of being used for classroom instruction. You will be making an argument **FOR** or **AGAINST** the use of this novel for whole class instruction based on:

- “ages and stages” development for this age group (young adults)
- controversial topics in the novel that this age may identify with
- grade-level appropriate common core standards that the use of this novel would address

You are **NOT required** to use one of the YA novels you peruse today for your project. You may choose another title with teacher approval.
