YEARLY PROGRESS CHART

To make this template your own, click on “File” on the menu bar in the upper left corner, then select “Make a copy” from the drop-down menu (or print it if you prefer to write). An example is provided below; start on the next page when you’re ready.

Goal/Skill	Baseline 2021–2022	Baseline 2022–2023	Baseline 2023–2024	Notes
Typing	Rashida can type 1 word with at least 6 or more prompts.	Can type a 3–5 sentence narrative by dictating to a scribe then copying for a nearpoint model with 4 or more prompts.	Rashida uses hunt and peck typing (right hand only) to copy 4 sentences with 60% accuracy and max assistance (4 or more verbal prompts).	Little to no progress reported. Baseline barely changed for sentences typed. Accuracy possibly changed (was not noted in 2020–2021).
Writing	Rashida is able to write dictated words and her first name from memory within a designated space with 70–80% accuracy for letter formation and sizing in a 1– to 2-inch space in 1/5 opportunities.	Can independently write first and last name in all caps within 1– to 1.5-inch space (one box per letter) . Support varies. Can copy 3–5 sentences from a nearpoint model with high accuracy.	Can independently write first and last name in all caps within 1– to 1.5-inch space (double lined paper) . Can copy 3–5 simple sentences from a nearpoint model with moderate prompts.	No progress reported. Zero change in a year except for boxes and lines. Even baseline language was identical. No progress reported.
