

Parkway School District MOSAICS Identification Review Procedures

Reviews regarding decisions made in the gifted evaluation process may be considered if there is new information that was not available at the time of the referral, or there are circumstances or conditions which were not shared that could affect the initial testing results. Reviews must be submitted within 30 days of the completion of the final evaluation.

The review process begins by submitting the [gifted evaluation review form](#). As part of the review form, parents will have an opportunity to submit (in writing) the information to be considered by the review team. The review team, consisting of the building gifted specialist, a district psychological examiner, and gifted leadership team members, will make a recommendation to the Assistant Superintendent for Teaching, Learning, and Accountability. The assistant superintendent will review the recommendation from the team presented and communicate a final decision.

Parents will be notified of the team's decision in writing within 30 days.

Inquiries regarding appeals which have been submitted or regarding the review process should be directed to:

Dr. Mollie Glazer
