

Data Exports from myANet

Data Exports include your students' interim data and are available on the 'Performance' tab on myANet to individuals with School Leader and Multi School Leader access. These exports include item level data for all students (including standards details) and download as CSV/Excel files. For information on how to access Data Exports, please see [this resource](#).

Below we highlight a few examples of how you might manipulate our data exports to gather insights about student performance. Please feel free to reach out to the ANet Support team with any questions that you have about our data exports! Our number is 877-764-9327 and our email is help@achievementnetwork.org.

For detailed information on the content of the Data Exports, check out the [Data Dictionary for Data Exports](#).

Overall Percentage per Row

To view **Overall Percent per Row**, you can use a calculation:

1. In the first blank column all the way to the right, create a header. *Ex. Percent_points_received/points_possible*
2. Within the first row below the header, type "=", select the first cell within points_received, "/", select the first cell within points_possible, and press enter. *Ex. =AR2/AS2*
3. Click on the cell and hover over the bottom right corner until the plus sign + appears, double click to continue the calculation through the column.
4. Select the Number format to be a Percentage.

Pivot Tables

One format that may be helpful in viewing your data is a **Pivot Table**. A pivot table is a tool in Excel that allows you to manipulate, explore, and summarize data. Using a pivot table, you can roll up myANet data exports to different levels of aggregation. Please click [here](#) for more information about using pivot tables, along with a screencast on the same topic.

Examples of insights you can gather with pivot tables include:

- Performance by Student
- Performance by Standard by Student
- Performance by Domain by Student

If you need support with rolling standard performance up to the domain level, please see this [resource](#). If you have any questions, feel free to reach out to ANet Support at help@achievementnetwork.org or 877-764-9327. Please click [here](#) for a complete list of 'Performance' tab resources.
