

# Integrations and Exporting FAQ

Q: What website integration features are available?

A:

- Can add application button to website that links to Sobriety Hub application form
- When residents fill out application, it automatically creates a resident profile in the incoming section
- Can add payment links to website for housing fees
- Can add resident forms like meeting attendance that residents need to fill out regularly

Q: How can I add a payment link on my website that the resident can click to pay through sobriety hub?

A: You want to add a link to the Sobriety Hub payment portal. Add a button to your website that says "pay now" and hyperlink it to: [sobrietyhub.app/client/portal](https://sobrietyhub.app/client/portal)

Q: Can I integrate Sobriety Hub with other tools?

A: While direct integrations are limited, data exports and workarounds using tools like AirTable are possible for tracking additional information.

Q: Can I export payment and invoice data from Sobriety Hub?

A: Yes, in the Payments tab, click the "Export" button to download invoice and payment data in CSV format.

Q: How do I pull reports on financial data per house for a certain time period?

A: In Payments, click "Export" and customize the date range and columns to include, making sure "House" is selected. The data will download as a CSV.

Q: How to put all residence emails into a excel file?

A: You can do this by going to manage organization tab and scrolling all the way down to "export data". Click in the top right then click manage organization and scroll all the way down to get this.
