

Red = Not needed for trophies

Black = needed for trophies

Ignore the word 'TROPHY', I had used it for reference when trying to figure out what Notes were required.

The required Notes can ALL be found under 'The Island' tab in the Notes menu in-game if you check only that. The Notes in red here with the same names are from other Arks (not The Island) which is why they are not needed!

Was very easy to work out what was required because the very first trophy (10%) popped on Note command 24, so then it was a case of roughly 24 x 10 and figuring things out from there with a little trial and error. Once I understood what was required, it was just a case of typing in each Note, checking what it was and then writing here if that was a required Note or not.

Not every Note is here because once I figured out the majority of Notes, I was skipping ahead using the rough pattern the game seems to use when assigning Note IDs.

If anybody cares to take the time to make a note of all the missing unrequired Notes I've not listed here, let me know and I can finish this list. Pointless though for the sake of trophies as all the trophy Notes are here already.
