Terms & Conditions – Prompt.Prompt

Last Updated: [Insert Date]

1. Introduction & Acceptance

Welcome to Prompt.Prompt (“we,” “us,” “our”). We provide blockchain-based .prompt subdomains (“Domains”) through a decentralized minting process. By using our website, minting a domain, or interacting with our services, you agree to be bound by these Terms & Conditions (“Terms”). If you do not agree, you must stop using our services immediately.

2. Eligibility

You must be at least 18 years old or the legal age of majority in your jurisdiction.

Our services may not be available in countries or regions where cryptocurrency use or blockchain-based services are restricted or prohibited.

By using our services, you confirm you are legally allowed to engage in cryptocurrency and blockchain transactions in your location.

3. Nature of Service

Prompt.Prompt enables users to mint lifetime-owned Web3 subdomains ending in .prompt.

Once minted, the Domain is permanently linked to your blockchain wallet and is non-custodial — we do not control it after transfer.

Domains are not “hosted” in the traditional Web2 sense; integration with Web2 websites may require third-party services.

4. Ownership & Permanence

Your Domain is recorded on the blockchain and remains in your control as long as you control the associated wallet.

There are no renewal fees — ownership is for life.

If you lose access to your wallet/private keys, you will lose the Domain. We cannot recover it.

5. Payment Terms

Payments are accepted in cryptocurrency only.

All transactions are final and irreversible once confirmed on the blockchain.

You are responsible for gas fees, which may vary depending on network conditions.

No refunds will be issued after minting.

6. User Responsibilities

You agree to:

Keep your wallet and private keys secure.

Verify all minting details before confirming a transaction.

Use your Domain in compliance with all applicable laws and regulations.

Avoid infringing on trademarks, copyrights, or intellectual property rights when selecting your Domain name.

7. Prohibited Uses

You may not use your Domain for:

Illegal activities, including but not limited to fraud, phishing, or distribution of malware.

Hate speech, harassment, or threats.

Impersonation of individuals, brands, or organizations without permission.

Selling counterfeit goods or engaging in scams.

We reserve the right to restrict service or take legal action if your Domain is used in violation of these rules.

8. Risks & Disclaimers

By using Prompt.Prompt, you acknowledge that:

Cryptocurrency values are volatile and may lose value.

Blockchain networks are experimental and may experience bugs, hacks, delays, or downtime.

Domain interoperability with future Web3 or Web2 systems is not guaranteed.

Smart contracts may be subject to vulnerabilities outside our control.

Loss of access to your wallet means permanent loss of your Domain.

9. Limitation of Liability

To the maximum extent allowed by law, Prompt.Prompt will not be liable for:

Loss of cryptocurrency or other digital assets.

Gas fees, network delays, or transaction failures.

Smart contract errors not caused by our direct, proven negligence.

Downtime or failures of third-party wallets, marketplaces, or blockchain networks.

Any indirect, incidental, or consequential damages arising from use of our services.

10. No Financial, Legal, or Tax Advice

All information provided is for informational purposes only. It does not constitute financial, legal, or tax advice. You are responsible for consulting qualified professionals before engaging in cryptocurrency or domain transactions.

11. Intellectual Property

The .prompt extension and Prompt.Prompt branding are our intellectual property.

You retain full rights to use your minted Domain, provided it does not infringe on others' rights.

Unauthorized use of our trademarks, designs, or platform code is prohibited.

12. No Custody

Prompt.Prompt is a non-custodial service. We never store or manage your wallet, private keys, or funds. You are fully responsible for securing your own assets.

13. Data Security & Privacy

Non-Custodial Model: We do not store your private keys, wallet credentials, or cryptocurrency.

Minimal Data Collection: We only collect the minimum personal information needed to provide our services, such as optional contact details.

Blockchain Transparency: All transactions are publicly visible on the blockchain and cannot be altered.

No Control Over Third Parties: We are not responsible for the security of third-party wallets, exchanges, marketplaces, or blockchain networks.

Best Practices: Users should use secure wallets, enable multi-factor authentication, and store recovery phrases offline.

No Liability: We are not responsible for unauthorized wallet access or loss of cryptocurrency/domains outside our direct control.

14. Governing Law & Jurisdiction

These Terms apply globally, but in the event of a dispute:

The governing law will be the law of our principal place of business.

If legal proceedings occur, you agree to submit to the jurisdiction of courts in California, USA, unless otherwise required by law in your country.

15. Dispute Resolution

Where possible, disputes should be resolved through informal communication before initiating legal proceedings. We may offer arbitration or mediation to settle disagreements.

16. Changes to Terms

We may update these Terms at any time. Updates take effect immediately upon posting. Continued use of our services after changes means you accept the updated Terms.
