

I Found A Dog!

Most dogs are found within 4 blocks of their family home. The best chance for finding its family is to *not* remove a dog from the neighborhood in which it is found if at all possible. Local Animal Control Officers field hundreds of calls each day - unless this is an emergency (the animal is unsafe to the public or is injured/sick) please consider holding it while you take these measures:

- ☐ Check the collar or tags (be sure to check inside the collar for information too)
Canvas the neighborhood asking if anyone recognizes/knows the dog Post on social media (FB, Nextdoor, Instagram, local pages, etc)
- ☐ Have the dog scanned for a microchip – you can not feel one but any vet, or animal shelter has microchip scanners and can assist
- ☐ Complete a form at PawBoost.com
- ☐ File a FOUND report at PetHarbor.com
- ☐ Post an ad on Craigslist in the Pets section and in Lost & Found
- ☐ Do not give details other than size/color - owners should give proof of ownership (size, name, age, sex, collar info, OR have photos and vet records to claim)
- ☐ Leave a message with Metro Animal Care & Control* (615)862-7928

*MACC may not be able to take the dog without an appointment but *may* be able to provide resources (crate, food, etc) if you are able to safely hold the dog for 48-72 hours until placement can be procured.

***IF you cannot “hold” the dog temporarily, please consider:**

Ask a neighbor or friend if they can keep the pet in a garage or yard if a kennel is available. If the pet is injured or visibly unhealthy: please take it to an emergency veterinarian and report it as a found pet.
