

DCIE II Final Project
Due: 1 Year After DCIE Enrollment Date

The goal of the final project is to demonstrate how you have incorporated integrative approaches into your practice through a case review.

Once completed, please submit as a Word Doc to courses@learnskin.com.

Please describe one case where you have utilized an integrative approach based on the outline below. This can either be a real case or a hypothetical one for those not seeing patients anymore. Please format your case study in AMA formatting style and include a minimum of 5 references.

1. Short H&P (1-2 paragraph): Briefly summarize the case and what conventional or non-conventional treatments have been tried.
2. Integrative treatment plan (1-2 pages):
 - a. Integrative treatment (up to 3 paragraphs to summarize the treatment)
 - i. What did you choose? Discuss dosing and the treatment that you incorporated to take an integrative approach.
 - ii. Why did you choose it? Was there a particular mechanism of action or reason that you chose your treatment approach? Please describe.
 - b. Discuss any collaborators who helped you with your case (ND, acupuncturist, other practitioners, etc). It is optional to include collaborators, it is encouraged but not required.
 - c. Provide patient consent if photos are included (*photos not recommended)
3. Discussion (1 page):
 - a. Synthesize your case against other similar cases and bring in the literature.
 - b. What does this case teach us?
4. Conclusion (1 paragraph):
 - a. Include at least 3 key takeaways
