

## Consent/Release - Student Work

**Student work at JALSD:** The School District recognizes the value of audiovisual and other types of electronic technology in the educational process, as well as the need for print and electronic communication with parents, district residents, and the broader community. In preparing such communications, the district may wish to include student artifacts in a school or district publication, program, website, or press release for a newspaper article.

These artifacts may include items such as:

- a photograph of a student or of a classroom or school activity in which a student is a participant,
- a student's schoolwork, or
- other student achievement.

The school district, being respectful of parent/student privacy preferences, requests permission for material concerning your child, especially exemplary work, to be used as part of an educational program, media presentation, or other communication product produced by students or the district.

**State and Federal Policy:** The State of Ohio and the Federal Government grants schools the right to share Directory Information as defined by the local school board. **Student work and photographs are not included in the State of Ohio or Board of Education definition of Directory Information.**

**Changes to Consent/Release:** Changes to Consent/Release for Publication of Materials and Directory Information may be made **from July 1 to September 29** of each academic year. Changes may be made by obtaining form 7540F1 from your building secretary, or downloading a copy of form 7540F1 from the Forms page on the district website by [clicking here](#).

*Selections made on form 7540 F1 or online will remain on file and in effect during the student's enrollment at Jonathan Alder Local Schools.*
