

Q1: What is your Wikidata username?

Q2: How long have you contributed to Wikidata?

Q3 When you started editing in Wikidata for the first time, tell me about your experience in deciding what items to edit?

Q3.1: What topics did you work on?

Options:

- Did you perhaps just work on topics that you are interested in?
- Or, general topics you had knowledge about
- Or, topics that you thought were needed in Wikidata

Q3.2: Which of the tools available in Wikidata were you using when you started?

Did you use for instance:

- Search box
- Open task page
- Specific tools (please identify)
- Other ways (please specify)

Q3.3: Which editing task did you prefer doing when you started? Please choose:

- Create new items
- Update the content of the existing items
- All of the above options

Q4: At the moment, how do you choose what to work on (items for the editing)?

Q4.1: What has changed in practice?

(In terms of topics you choose to edit and tools you use, and the editing task you tend to perform)

Q5: Do you think that any of your demographic attributes like nationality, cultural background, specialism, expertise influence your strategy to choose what to work on?)
