

### === Section 3 – Conservatorship ===

- \* The Bravo Fleet Conservatorship is the apolitical board of trustees of Bravo Fleet.. The Conservatorship is charged with safeguarding Bravo Fleet’s long term security as guardians of the real world digital infrastructure (“assets”) of the organization.
- \* Members of the Conservatorship are specifically tasked with holding the real-world assets of Bravo Fleet including, but not limited to: the domain(s), fleet and/or sim hosting, donation Paypal account, and Discord ownership.
- \* All former Bravo Fleet Commanding Officers who have served in the position of BFCO since April 7, 2020 and are in good standing are automatically members of the Conservatorship. Any sitting members of the Conservatorship as of (date of adoption) are grandfathered in as members.
- \*\* Members of the Conservatorship automatically and immediately lose good standing when one of the following occurs:
  - \*\*\* The member is convicted by a Magistrate proceeding;
  - \*\*\* The member is removed from the Bravo Fleet Admiralty, which includes resigning once a removal discussion begins;
  - \*\*\* The member holds office in a competing Star Trek organization’s leadership.
- \*\* If a member fails to respond to Conservatorship communications within 72 hours via escalating means (Discord, then email, then telephone), when a response is required, and is not otherwise accounted for (e.g.: LOA) their Conservatorship membership will be considered suspended.
- \*\*\* While suspended, their vote will not be tallied in any votes of the Conservatorship and the number of votes to pass a measure is reduced by one.
- \*\*\* A suspended member may regain their full status by returning to activity and remaining in contact for a period of thirty days.
- \* All official actions of the Conservatorship require approval. No member of the Conservatorship has independent authority within Bravo Fleet as a Conservator outside of their ability to vote within the Conservatorship.
- \* The incumbent Bravo Fleet Commanding Officer sits on the Conservatorship as a representative of the Bravo Fleet Admiralty, but does not have a vote within the Conservatorship itself. For the sake of clarity: a Bravo Fleet Commanding Officer that is serving a subsequent term as the sitting BFCO only serves as a non-voting member of the Conservatorship for the duration of their term.
- \* The Conservatorship may, as needed and by unanimous vote, temporarily add other members of the fleet to help facilitate its duties including, but not limited to: technical expertise on digital assets, legal counsel, interpretation of the Charter, etc.
- \* Discussions of the Conservatorship are generally confidential, with transparency of the organization’s actions being announced through reports of the sitting Bravo Fleet Commanding Officer.
