What are Colored lace front wigs?

[Colored lace front wigs](#) are a type of wigs that are dyed in different shades to suit buyers' needs. But just because it's a colored wig doesn't mean that it shouldn't look real, so by incorporating lace in the front of the wig and weaving the strand through it, wig makers have made it look just like real hair. The only difference will be the different colors it comes in; otherwise, from the texture, nobody can say it's fake hair.

Key features of colored lace front wigs

Here are some of the key features that will help you decide whether to buy colored lace front wigs or not.

- **Plenty of hairstyles to choose from:**

You will have plenty of hairstyle options to choose from: straight, curly, deep wave, body wave, and so on. There are so many options when it comes to selecting the wig texture and colors that you will never run out of options.

- **Stylish hair color:**

If you think that you will most likely get a single-tone dull hair color and are considering why you should spend money on a wig, isn't it better to get a box dye? Then you're mistaken because you will find so many stylish hair colors that include but are not limited to single and double-sided highlighting, spaced highlights, and so on. All these options are available exclusively at the Luvme hair store.

- **Comfortable:**

No matter how beautiful a wig looks, one of the key features that it must have is that it should be comfortable to wear on the head, especially in summer when the scalp sweats more than usual. The colored lace front wigs are both stylish and comfortable to wear for extended periods as well as during summer.

Bundles of hair

[Bundles of hair](#) are high-quality hair strands that have been tied together to make bundles. These bundles of hair come in different textures and lengths, and their prices depend on the quality of the hair strands they are made from. With the raw hair bundle being the most expensive and premium quality after the raw hair bundle, the virgin hair bundle is the second most costly. In contrast, the hair bundle made from synthetic hair fiber is the cheapest out of all options. Depending on the type of extensions or wigs you plan to make, you can decide which one is more suitable for you. If you are new to wig-making, we would suggest you start with the cheapest synthetic bundles of hair.
