Note: I have researched to the best of my ability the above-named players, but of course with the older premierships I am relying on old information and most times on the end of year premiership photos. If that list or photo includes more than the actual team, I have included everyone as a premiership player, most photos have only included a couple extra. The stats from 1990 on are correct.
1966 Premiership, I searched through SAAFL book for this information, We have a photo that has on top 1967 premiership team that defeated Teachers College. In the SAAFL book the 1966 side beat Teachers College in A5.
