EdReady NE

A customizable mathematics *and English* readiness system that provides Nebraska students with a personalized learning path to help them reach their math and ELA goals.

To accomplish 2018-2019

- **Work closely with NDE & ESUs- training and scaling around 5 model uses as defined by NDE**
  - Continued work on focusing support and efforts around 5 models of uses
    - Promising CTE (math) work in Pawnee City and North Bend
  - Added selection of a Model Use to the application process in order to clarify best usage
  - Nov.9, 2018- Math Standards alignment (revised)- worked with James Harrington, OPS Secondary Education Mathematics Supervisor, and Dawn Ferreyra, ESU 3, Educational Consultant, to complete math alignment to NE Math Standards
  - Nov.27, 2018- Working with Deb Romanek & Dawn Ferreyra to develop messaging and informed teaching models for EdReady Math
- **Launch new pilots for EdReady**
  - 58 teachers requested goals Aug.-Oct.2018 (via ESUCC portal) Does not include goals created via ESUs and copied from previous years
  - NROC Installed courses were provided to requesting schools (no data available)
  - Hippocampus usage (no data available)
- **Awareness: Explore new opportunities with CTE, ELL, and Alternative Ed programs**
  - Continued presentations and work with both ESUs and local schools and teachers
  - Facebook Opportunity - free ad push
- **Coordinate more closely with NDE leadership around priorities to serve at risk student populations**
  - Nov. 8- Cory Epler, Deb Romanek, Dawn Ferreyra, Ted DeTurk, Dave Ludwig, and Nancy Movall met with Corey Hatt, Nebraska Math Readiness Project to learn more about Community Colleges' approach to the number of students needing to take remedial math courses in college.

    - Cory Epler sent updated report from Georgetown on Middle Skills Jobs
    - New data on NE dearth of skilled labor in NE- reinforces need for program such as EdReady with it's CTE goals
- **Integrate EdReady data into more extensive SRS dashboards** for use by administrators, teachers and even parents –particularly to track the success of EdReady students in grade level completion and on summative assessments
    - track meaningful measures of college readiness over time
        - DE²TAILS/Advisor Dashboard (not yet)

Review of 2017-2018

Build awareness

- Pilot planning and pilot site visits
- In addition to the pilot contacts and site visits, 44 presentations and outreach sessions were conducted. This included presentations to ESUCC Leadership Committees, ESU Supt.& Principal meetings, ESU Math, English & ELL groups, and individual school presentations (location and dates upon request)

Project management

- **Support impactful use:**
    - **develop resources and training materials**
        - **Website**
        - Training Manual (now much of this found on website under Get Started & Classroom Resources)
        - Marketing & Media
        - Nebraska Case Studies & Model Uses (NDE)
        - Standardized goals & procedures
        - Standards Alignment for Math & English (not yet)
    - **track meaningful measures of college readiness over time**
        - DE²TAILS/Advisor Dashboard (not yet)
