PUREAIR Coin

No more pollution deaths

Every transaction in the platform brings us one step closer to eliminating the air pollution.

Every year 7 million people die because of air pollution...

Pure Air Industries is developing units to clean open air in cities - removing major pollutants and chemicals in the air. Each unit, while cleaning the air, collects thousands of datapoints and as they become ubiquitous, more data will be available. PureAir Coin (PURE) is the currency to access our DAPP, and by extensions all the capabilities you can find there.

Users first

PURE holders will be able to access the platform, the data and to earn money verifying this data is accurate. Also, our network gives you free wifi wherever our machines are placed.

Blockchained data with user verification

All the data is locked in a blockchain and all machines are in constant synchronization

Sponsors

Sponsors are able to pay and promote these units so they are available to everyone soon rather than later.

Development Plan

Here is our team

Isaac Ramonet Founder & Core developer

Isaac is a serial entrepreneur and inventor. You can follow his story here. He has created many apps and webapps before and he is just after this problem by sheer passion.

Jamie Young Mechanical Engineer

You can write here details about one of your team members. You can give more details about what they do. Feel free to add some links for people to be able to follow them outside the site.

Adel Djebbar Mechanical engineer

Adel is a mechanical engineer who excelled working at General Electric and now is ready for a new challenge by managing the team and developing itself part of the solution.

Oliver Grange Electrical engineer

Oliver is our principal Electric Engineer and the one in charge to make everything work smoothly. Every electrical bit passes by his very capable hands and ends up well integrated in our machines.

Roadmap
