SUBJECT LINE No more HR meetings...

Hey [Owner Name],

I know your inbox is probably full of bullshitters trying to take your money, so I'll keep this brief.

I've researched [Business Name] **and saw a paved road to the future. AI is taking over the world, and businesses that aren't using it will collapse while their competition races ahead... With AI, you will stay competitive and dominate your industry.**

This is a system I call the "Terminator Approach", I integrate an AI Slave into your [Website, Social media, Funnel]. You can effortlessly convert leads around the clock without complaints **(have you ever seen a robot cry to HR?).**

If interested, I'd be happy to make a free demo so you can see firsthand what this would look like for you. Let's set up a quick call to discuss how we can use "Skynet" to make your business thousands of \$s. Or, if you'd prefer, we can meet for coffee—my treat. 😊

Hasta la vista baby,
[Your Name]
