

Campaign for Open & Trustworthy Science - Big thanks to our helpers and contributors so far - please join too!

GOAL of campaign: Global adoption of new quality principles for research publications, achieved through collaboration between funders, researchers communities and public.

More information about the campaign: <https://app.jogl.io/project/310>

(The list of helpers and contributors below is publicly editable, to make it easier for people to edit/add/remove themselves - no questions asked).

Aman Choudhri
