Follow-Up Questions & Observations

Did you experience any challenges while recording audio for this meeting? What are you left wondering? What observations or learnings are you taking away from this meeting? What do you feel, think or predict?

- There wasn't a timeframe set aside for the public to ask questions on the project discussed. Are all meetings held in this format?
- For how important some of these projects are to the infrastructure of the city, many of the people in attendance were directly involved or heading said projects. Is there a way to get more public representation at the meeting so they can learn how roads and neighborhood construction is handled, and provide feedback from people living in the communities where changes are happening?

[00:00:00]: Meeting Start Time

[05:25:00]: Discussed 14 month Bid List

[06:03:00]: Reviewed items on Bid List

[45:53:00]: Meeting End Time
