Action Charter

This Charter is established between the [Executive Leadership Team](#) (ELT, the Sponsor) and Student Success Council to structure the process and planned outcomes for the Council during the three-year period during the academic years 2022-2025.

Purpose:	The Student Success Council (SSC) is responsible for providing input, feedback, coordination, and project management support for all aspects of the College that impact student success and learning. We strive to approach this work from an equity framework and lens and to continually expand our capacities as equitable practitioners. We support “continuous growth and improvement of outcomes and experiences for those who are disproportionately impacted and marginalized in society and on campus,” as described in ARC’s Institutional Equity Plan , page 1. The Council meets regularly to consider the state of the college's progress in achieving its strategic goals and to discuss potential major initiatives to advance the work.
Strategic Charge:	The Student Success Council bears chief responsibility for coordinating a select number of major initiatives, and sponsoring and supporting collaborative work teams to design the implementation of these initiatives.
