

## Official Endorsement of Reagano-itsBOOM

The Western State Republican Party is proud to announce that it is officially endorsing the ticket of Reagano-itsBOOM for the Presidency of the United States. We will support Reagano in all efforts and will be instructing all citizens of the Western State to vote for such a qualified candidate to be President.

Governor Reagano has fought for conservative values his whole life and has implemented such a conservative agenda within his state of Dixie. During his administration, he enacted Executive Order 003, which would allow open-carrying in all public property owned by the State. This is the type of grassroots conservative that we need leading the nation.

Governor Reagano has also shown prompt leadership and haste when he removed the controversial, incompetent Scott Israel by way of Executive Order 001. These are the exact qualities that are necessary in a leader - responsibility, prompt action and a willingness to make controversial decisions for the betterment of the nation. When Vladimir Putin threatens Europe, when dictators tighten their grasp upon their regimes, when internal disasters rock America, Reagano is the man we need at the helm.

As for itsBOOM, no amount of praise would be exhaustive of his accomplishments as Senator for the Western State and for the United States as a whole. itsBOOM took leadership when our inactive, incompetent Democratic Governor /u/ClearlyInvisible had a vacancy to fill in within the Western State

Supreme Court, and sponsored a Senate Resolution to condemn the Governor alongside Senator /u/2dammkawaii.

itsBOOM has a very strong legislative track record and has been a proven champion of conservative values and of the Western State. He has not missed a single vote in the United States Senate, and has consistently voted for legislation that would lead America to a reign of prosperity. He has also sponsored four bills within the Senate, including a comprehensive piece of legislation that would mandate voter IDs and protect the validity of elections.

Governor Reagano has shown a strong ability to control the executive and steer his constituents to a better future, and Senator itsBOOM has been equally apt in the legislative, with a keen eye for policy and an understanding of exactly how solutions can be formulated. After the Nonprehension-GuiltyAir administration destroyed America, this combination is exactly what is needed to fix it.
