

Brainstorm

Brainstorm

Accessibility

Groups: people with agoraphobia, ASD, ADHD

1. Desired Path - personalized routes accounting for physical disabilities
 - Physical therapy → viable routes
 - Problem statement:
 - Elevator / curb ramp detection
 - Some near field detection - sound?
 - Traffic - avoid areas of high congestion
 - Standout feature: community feedback/crowd sourced info for route generation
2. People with ASD traveling
 - Problem: sensory overload and confusion while traveling alone
 - Solution: connect individuals to trusted friends/family or licensed helpers?
3. Airport travel
 - Start to end journey planner for underage travelers
 - TSA travel times, contacts for specific situations/emergencies, personalized pack list/itinerary, contingency plans, digital wallet

Edtech

1. Accountability for courses you take online or online degrees
 - Target users: people with learning disabilities (ADHD, Dyslexia, etc)
 - Update each other on personal progress
2. Tool to help self-learners → **personalized syllabus/curriculum creator – ai that plans things for you so you can just focus on the learning**
 - Maximize efficiency for YouTube tutorials
 - How to systematically learn + figure out which resources are credible/useful
 - User enters: time they have, time of day, what they want to learn, budget, subject, resources, level of familiarity
 - App generates syllabus catered towards their needs / availability
3. Counterpoint - media literacy tool for controversial topics
 - Offers list of resources that counter argue against opinion of current article
 - Just prompt - offer list/summary of differing viewpoints on contentious topic
 - Problem: people don't fact check when they look at reels/tiktoks
