UNBOXING LORE
ITERATION V3.0

for the remains of humanity, see here: REMAINS OF HUMANITY

welcome to the new edition of earth in the unboxing lore!! this is like the 3rd rendition but u may notice that its not that different from the last one.. similar map and countries and stuff but hopefully makes more sense while still haing interesting alt history things i can do..

also a new universe: unboxian earth, where sapient species evolve in ypresian times and emerge from indonesia. this means that that earth also has a parallel universe that takes place in ypersian times too, i just dont know the specifics of it yet cause unboxian is still very wip

all descriptions of countries and characters take place in 2025 except when specified otherwise!!

some terms:

- antarctic realm isnt just the geographical thing, its the range of influence of the wawaqs and all people separated from europeans and asians pre-columbian

the following terms all come from the rivinyo language

iterations:

- 1.0 (the worst)
- 1.1 (cascadia added)
- 2.0 (the newer one, with more historical backing)
- 2.1 (fixed the oregon territory)
- 3.0 (even more historical backing, modern)

welcome to torran earth.. its like earth except a few things are different most are obvious

- tech is like 100 years behind, but socially not
    - no computers, old planes, old telephones, old cars
- lots of events from the real world happen, but a lot are different and some are new
    - some independence movements and stuff are successful
- new ores and elements and stuff
- the roots, earth has a cavity a second ocean and stuff

Antarctica / Wawa

Antarctica is one of the only continents that has exposed roots, besides North America, with barely any in the Arctic Archipelago and Greenland. This allows it to have biomes like no other in Earth, as well as biomes that arent usually in them.

This also allows it to have everything transferred from the Acorean hosts, such as minerals like Mythril, Adamantite, and Orichalcum.

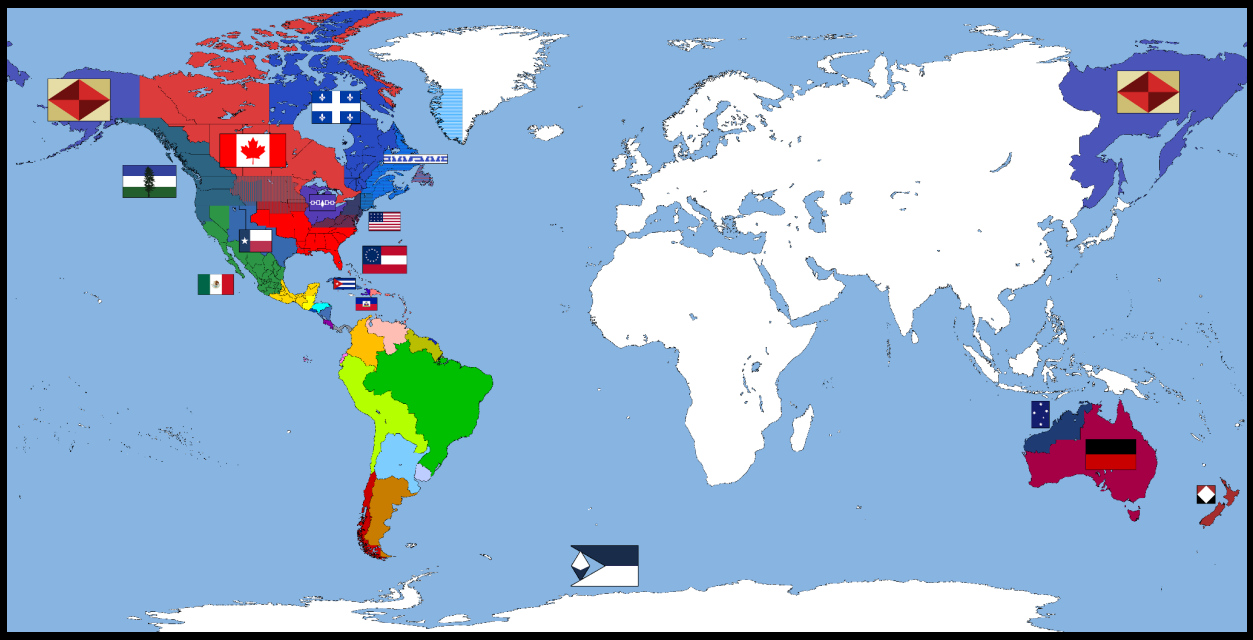

Countries:

- Sovereign Nations of Cry

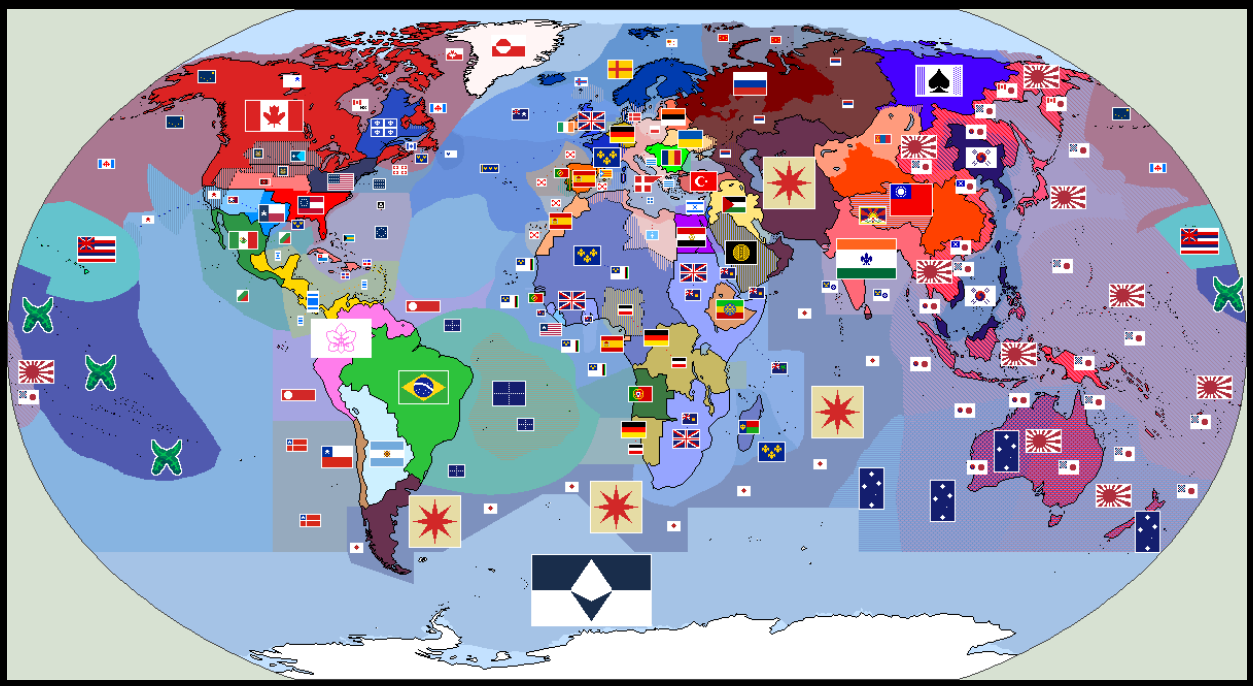

Ores:

- Mythril

Description

- i think schizophrenic but she def has problems she talks to herself and it leads to hurting herself and in the 2nd story she stabbed herself and had to go to the hospital

Source syndrome:

- has source syndrome, the only one in the entire whole of, but doesnt even know it, has thoughts and visions of things in the lore that are not known to humanity yet like the inverted and stuff, also has visions of the courtyardigans
- is suspicious of the courtyardigans cameras (torrah t. rivulet, maikli alise, crepe) but only subconsciously
- likes all cats except cats that look like bendo oliver mitu mito or pumpkin, she refuses to go near them but doesnt know why
- the fractal restarts in her mind, she is the source of the fractal so in her mind subconsciously is the courtyard and then the rest of the world
- draws lore stuff and symbols thinking its just her creativity and her own world
- occasionally she may predict things almost last second, or days before it happens. like big world events. she will predict ww3 and the reason for it weeks before it happens and is revealed

other things

Keist - a Cry influenced type of government. it is similar to a republic, but is more confederated like Cry. it started with the liberation of Russian America and Siberia as the Key'z'Aulyaska.
Cyo - Cry dollar, also used as a base currency by keists.

new languages:

- rivinyo - spoken by the wawaqs of antarctica. most common language in wayaquoto
- rusolit - spoken by alaskans of aulyaska, developed in russian america and derives from aleut languages, tlingit, russian, and rivinyo
- ngayariyo - spoken by the yariaqs of yaria, and a bit in karratha. constructed language for the country created by a council of rivinyo and countless aboriginal officials.
- te basa kedirana/kediranish - language formed as a result of maori colonization in the malay archipelago in the 1000s-1500s. spoken primarily in kedirana

what makes a keist

a keist is cry influenced. therefore, a keist shares multiple political systems with it.
english: killlic
french: kiste
spanish: kista
rusolit: key
kediranish: kietu

1. its more like a confederated federation of states. with a constitution. its a form of a republic but a merge of cry's government
    - this means that states have more autonomy in the country, and are similar to the countries of cry. however, they are reliant on the base country, and all help eachother. they are all under the base constitution, but states can have their own laws.
2. indigenous rights are important, creating good relationships with the indigenous people. land is shared with indigenous people, and many lawmakers are indigenous to support this.
    - however this does not work well for quebec vs the wabanaki empire, and they get into war.
3. similar to republics, citizens have rights

4. divided into province nations, or *azmuts in rusolit, azimuts in french, acimutes in spanish, azimuths in english*

solntezsm

mix of wawaq selenesm, who worship the blue moon, and orthodox christianity.
instead of worshipping the blue moon, they worship the red sun, which was a figure in selenesm but not the main focus.
stories and figures from christianity are included and are made to fit along with this new version of selenesm, due to the attempted conversion of nearby populations by russia in russian america.

American Revolution

Just War

The Just War, or the Quebecois Revolution, is widely accepted by historians to be the cause of World War 3. It involved Canada, Québec, later Cascadia, France, and the Confederate States.

2 sides - Anglophone and Francophone, however Cascadia and Cry are grouped in with Francophone despite them being Hispanophone and Wawaq respectively.

Anglophone:

- **Canada**
- **Confederate States**

- **Republic of Texas**

Francophone:

- **<u>Québec</u>**
- **<u>Cascadia</u>**
- **Cry**
- **France**

** underlined = main*

It resulted in a Francophone victory, with an independent Québec and Cascadia. However, it didn't stop. The war, being publicized to the world with its message of resistance from the long discriminated Francophones, was a clear warning to any non-French nation. It didn't stop there however. Not only did it inspire the French, but it inspired further decolonization efforts in Africa by the non-French.

Revolutions soon sparked around the world in Francophone and non-Francophone nations, and the world was plummeted into war while the Just War was still continuing.

A few months into the war, Covid-19 hit. With World War 3, it quickly spread and caused much damage.

a layer beneath the continental crust that is like 50 km deep of water and is part of the cavity but its a transition period

in the middle of the layer, the rules switch from verted laws to the laws of acorean hosts in the verted (aka laws of the blackened roots and verted at the same time)

so gravity flips and pressure is different and stuff

theres floating islands in the water and land connected to the tectonic plateso f the crust on the top part of the second ocean, but on the bottom its completely different and has its own plates
theres tendrils of land that connect the top land to the bottom land too

Canada, formally the Republic of Canada, is a North American country in the Canadas (Québec, Canada, and Cascadia). It is the oldest country in the region, and used to rule over all in the region before the Just War, or the Quebecois Revolutionary War. It is the richest country in the world, and has the largest influence.

However, it being extremely discriminatory towards the Cascadas, the Quebecois, and the Acadians led to the Just War, which will lead to its demise.

Cascadia is the final country of the New Spain and Romania region to become independent, and the most northern. Established after peacefully seceding from Québec during the Just War in 2022, and later being recognized by Canada in 2024, it is Spanish descendant, which the discrimination from Canada due to this led to it joining Québec.

Before the Just War, it composed of the provinces of Alta California, Orejón, Nutca, Colombia, and parts of British Columbia and Aulyaska. Formally, it is referred to as la Kista de Cascadia, or the Keist of Cascadia. Being a keist, it has things in common with both Canada, Québec, the Confederate States, and mainly Cry.

Wabanaki Empire

the wabanaki empire has many names. historically, it has been an empire, referred to as the Wabanaki Empire or Wabanakia. however, after the Wabanaki Revolution, it was established as the Dominion of the Wabanaki.

it has always wanted to conquer all of north america, but after colonization, its goals were stopped until it was independent once more. now, in the 2020s, its desire for north america was revived, however with respect to other indigenous nations. it hid its goals, until other countries in north america started fighting eachother, and the Wabanaki decided to fight for new land.

The Wabanaki Revolution - The Acadian-Indian War

The United States of America is and was the oldest country that gained its independence from Europe in the Americas. Historically referred to as the 'land of the free,' it ended as a dictatorship similarly to real world North Korea. It's descent to authoritarianism started with the signing of the Oregon Territory to Canada, and the later loss in the Mexican-American War, leading to the loss of Texas and California.

The First American Civil War sealed the deal, and when the Confederates won, the people of the North were more than angry. They wanted a change badly. *They had Lincoln assassinated, and assigned their own dictator.*

Sovereign Nations of Cry

The Sovereign Nations of Cry, also called Cry, sometimes referred to as Antarctica or Wawa, however that name relates to the continent, is a federation of semi-self governing sovereign states, however most of their power is vested in Cry. It can be compared to the United Kingdom, with countries like Scotland and England compared to the countries of Cry, and the type of government traces back to the Wawat Kuttu of the 900s.

Because of its location in Antarctica, it has the most influence from the roots of Earth, as the roots penetrate through the surface of only Antarctica. This allowed them to have multiple minerals others in Earth's surface couldn't have, and allowed them to flourish like Europe, such as Mythril, Adamantite, Orichalcum, and Tayai (or Cold Gold). It also allowed them to have a more supportive environment, with biomes that could sustain civilizations on their own.

Historically, they were the most prominent empire in the history of the world, more influential than all of the Roman Empire, as they influenced the entirety of the Americas, Oceania, and southern Africa, known as Wayaquoto, or the Antarctic Realm. They succeeded due to their mentality and resources, as

well as their beliefs of the future. They were able to not conquer, but help the entirety of the non-European world and help it resist colonization.

Most people live in the coast of West Antarctica, or in the caves of Antarctica, however moves have been made to populate the inside and the East.

History

Discovery of Wawa

Around 10-14 thousand years ago, a warrior culture from South America reached the southern tip and discovered a land bridge connecting Antarctica and South America. They crossed it, before realizing the land bridge ended halfway through. So, they started to sail, trying to find if the bridge continued or if this was it. But they soon found it continued, and kept going.

It got colder and colder as they went on, and they soon discovered a tundra at the tip of present day Antarctica. They called this area Wawa, like they did for all their land.

As they migrated all across West Antarctica, over thousands of years, the land bridge sunk. They had no way to get through other than to sail. But for the mean time, they stayed in Antarctica. Over time, Wawa came to mean Antarctica.

They settled in the large caves, which supported life, the coasts, and the mountains. Soon they became the most successful society in the world at the time.

Soon they entered into East Antarctica, either through the mountains, the caves, or by sailing. They started spreading throughout, and found it was a hub for resources. However, most stayed in the West.

They also traded with nearby neighbors, mainly the people of Tierra del Fuego, but also went further north to the rest of the people of South America. They reached Oceania and traded with them, further extending the reach of Wawa.

Order of Nine Angles

The Order of Nine Angles (O9A) is a Satanist terrorist organization (proclaimed by most UN states by 2033) operating around the globe. Its goal is to establish a theocratic Satanist ethnostate, populated by White people and directed by a Council, led by Satan himself.

O9A was established in the 1960s, in the United Kingdom of Great Britain, however it became more recognized with the beginning of the Nuclear Winter. In this panic, the Order led a multitude of people to join it, offering food and shelter. Starting in 2031, the Order began to claim hold of countless eastern counties of mainland Romania, declaring the independence of the Imperium - the state of the O9A. By 2033, a multitude of countries refused to recognize it as independent, instead recognizing it as a terrorist organization.

The Third Reconquista, or the War on Satan, began in 2037. It began when the Imperium kidnapped a Romanian embassy of Yaria, with the belief that he was the Vindex, a messiah who came to Earth to establish the Global Imperium.

Beliefs

Aeons

Primal, Hyperborean, Sumerian, Hellenic, and Western
each has their own dominant civilization

just read the wikipedia rarticle

The Imperium

Also known as the State of Nine Angles, it is the government-in-exile proposed by O9A. It is rooted in Nazi ideology, contributing to the belief that Judeo-Christianity is an enemy to the civilization of the Western aeon. To combat this, the establishment of the government of the Imperium is necessary. This government - composed of solely White 'Aryans' - should colonize the Milky Way for this goal.

The government itself is a theocratic state, de-facto led by Satan, but de-jure, it is a council of O9A members. The council is said to report to Satan, and contacts him via worshipping and human sacrifices, along with crimes and selfless behavior. The council makes no decision of their own, and solely carries out Satan's command.
