ALERT: THEY KNOW SOMETHING!!

JAPANESE MINISTER to urge citizens to stockpile food and water ahead of new disaster preparedness initiative.

MANY NATIONS ACROSS THE GLOBE ARE MAKING THE SAME RECOMMENDATIONS!!

JAPAN DISASTER MINISTER Goshi Hosono will issue a **FORMAL NATIONWIDE REQUEST** on Nov 2—the launch of the new Disaster Management Agency—urging households to stock at least 3 days (ideally a week) of food, water, and toilet supplies.

Earlier today it was **GERMANY** and it was the **UK** over the weekend.

UNITED KINGDOM

UK FAMILIES ARE SUDDENLY BEING TOLD TO *STOCK UP ON EMERGENCY SUPPLIES* – AND, TO PREPARE FOR WAR.

Wes Streeting, the **UK'S DEFENSE SECRETARY,** went on a media blitz to push a new **"BE READY"** campaign to boost Brits' preparedness for crises — which he said could range from floods and wildfires to terrorism and cyber-attacks and ultimately even war.

***"THERE'S NO SUGARCOATING THE FACT THAT WE DO LIVE IN A MORE DANGEROUS AND TURBULENT WORLD,"* STREETING TOLD BBC'S "NEWSNIGHT."**

"It's about saying to households across the country to be ready by just having some everyday essentials indoors should there be disruption from these sorts of events."

Here is a Direct Link to the British Government website urging citizens to stock-up on food, water, medicine and such CLICK HERE

https://beready.campaign.gov.uk/

GERMANY

This week, Germany's Federal Office of Civil Protection and Disaster Assistance (BBK) updated its emergency guidelines via the BBK Crisis Guide to a **FULL FORTY (40) PAGES!** (SEE ATTACHED)

They advise households to be self-sufficient for three to ten days in response to heightened geopolitical tensions, cyberattacks, and the realistic threat of war.

Key Recommendations for Citizens

• Stockpile Supplies: Maintain 3 to 10 days of food and water (roughly 2 liters of drinking water per person daily), alongside rotated provisions, pet food, and essential sanitation items.

• Emergency Gear: Prepare first-aid kits, battery- or crank-operated radios, power banks/solar generators, flashlights, and cash to handle potential electronic payment disruptions.

• Shelter and Safety: Know local siren signals, monitor official warning apps, and identify safe areas in homes (such as interior rooms with few windows) or public infrastructure during explosions or extreme weather.

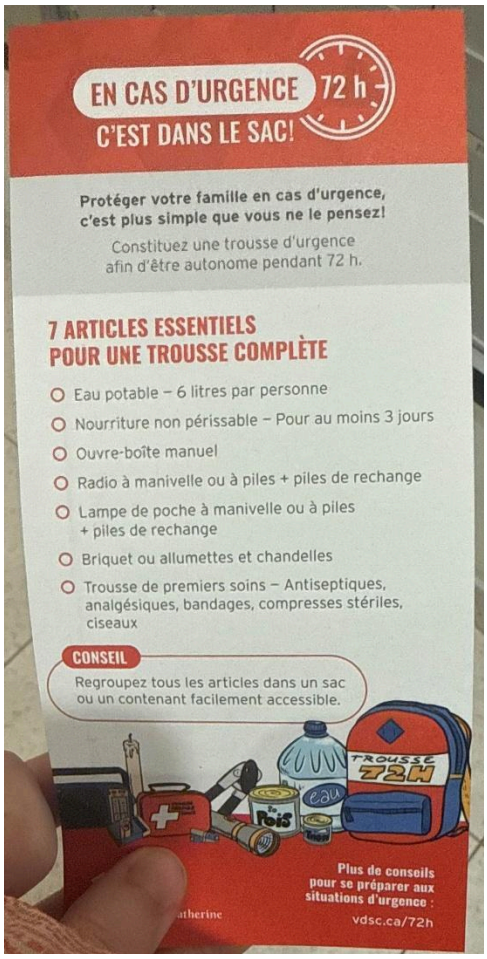

• Official Rationale: Authorities stress that these measures are routine precautions against modern infrastructure vulnerabilities, energy disruptions, and hybrid threats rather than a sign of imminent panic.

Here is a direct link to the German Government **40 PAGE GUIDE** on Civil Defense: Click HERE **(ENGLISH VERSION ATTACHED)**

QUEBEC, TOO!

This past weekend**, QUEBEC, CANADA BEGAN TELLING ITS CITIZENS THE SAME THING:**

WHAT DO THEY ACTUALLY KNOW TO BE GOING ALL-IN THIS DEEP?

THIS IS FASTER THAN THE COVID EMERGENCY.

US MILITARY TOO

Late last month, Secretary of War Pete Hegseth Instructed the Military he was initiating **"FORTRESS"** America:

SECRETARY OF WAR
1000 DEFENSE PENTAGON
WASHINGTON, DC 20301-1000

SEP 30 2026

MEMORANDUM FOR SENIOR PENTAGON LEADERSHIP
COMMANDERS OF THE COMBATANT COMMANDS
DEFENSE AGENCY AND DOW FIELD ACTIVITY DIRECTORS

SUBJECT: Establishment of FORTRESS America as a Department of War Program for the Defense of the American Homeland

Effective immediately, I establish FORTRESS America as a program of the Department of War. FORTRESS America will serve as the nation's insurance policy— a comprehensive,

Federal Operations for Resilience, Troop Resources, Energy, Supply, and Survivability.

Last week, Hegseth told assembled Military Brass exactly what this means:

In Speaking About This, Hegseth Inadvertently Made Clear **"THEY WILL HAVE FOOD, ELECTRIC, FUEL, MEDICINES, ETC." EVEN IF WE (YOU AND I) DO NOT.**

"The Pentagon's FORTRESS initiative would require every major US military installation to operate on its own for at least 90 days, with independent power, water, fuel and communications.

It also calls for strategic reserves, backup supply chains and plans to shift civilian factories to defense production in a crisis."

"90-DAY INDEPENDENT OPERATION: Bases must sustain electricity, water, fuel, and communications without external support...Strategic reserves: Fuel, munitions, and critical materials stockpiled to survive supply-chain collapse...

FORTRESS America is intended to ensure bases remain operational—"aircraft keep flying" and "command centers never go dark"— ***EVEN IF CIVILIAN SYSTEMS FAIL***...FORTRESS also calls for supplies of ammunition, fuel, minerals, electronics, spare parts and medical supplies..."

***DID YOU GET THAT LITTLE SNIPPET*: "SUPPLY-CHAIN COLLAPSE?" *WHOSE SUPPLY-CHAIN?* YOURS AND MINE!**

SEE WHERE THIS IS GOING?

Well, **THE ARMY TIMES** Is **REPORTING** As Of Monday, October 26: **US *ARMY PRACTICES DIGGING TEMPORARY BATTLEFIELD GRAVES***

The story goes on to say **"THE ARMY IS PREPARING FOR THE GRIM POSSIBILITY OF BURYING FALLEN SOLDIERS ON THE BATTLEFIELD,** testing how fast it can dig temporary graves while preserving remains for eventual identification and return to families after the end of a conflict."

The story also reveals "During an exercise in North Carolina, engineers, preventative medicine teams, chaplains and fatality management specialists prepared for mass temporary interment not used on a large scale since the Korean War." (Story HERE)

https://www.armytimes.com/news/2026/10/26/army-practices-digging-temporary-battlefield-graves/?taid=6adfa5ca1579270001ce0e05&utm_campaign=trueanthem&utm_medium=social&utm_source=twitter

FINLAND TELLS CITIZENS STOCK-UP FOR RADIATION FROM NUCLEAR WAR

FINLAND'S MINISTRY OF HEALTH recently told citizens to stock up on Iodine pills "in case of radiation emergency."
The ministry presented the new recommendation at a media event.

The ministry said the recommendation was limited to people 3-40 years of age because of the potential risk radiation exposure poses to that age group.

The release of radioactive iodine from a nuclear incident into the environment, could build up in the thyroid gland. This is most harmful to children, who are at greater risk of developing thyroid

cancer due to large doses of radiation," the ministry's statement read.

The statement noted that in case of such an emergency, sheltering indoors was the main way for people to protect themselves from hazardous radiation.

The ministry also noted that a single iodine tablet dose usually provides sufficient protection. It added that iodine rarely causes side effects, but that individuals who have thyroid conditions should use the substance with caution.

The recommended single dose for 12-40 year-olds in a dangerous radiation situation is 130 milligrams of potassium iodide. Children over 3 years of age are recommended to take half of that dose.

RUSSIA: RADIATION EMERGENCY PREPS

School children in every single city and town in Russia brought home official government notices, telling families what to do in **CIVIL DEFENSE EMERGENCIES** like . . . radiation.

Poster boards are going up in mass-transit stations, at city halls, in shopping centers with the exact same message.

* Upon hearing the SIGNAL, turn on your radio or television set and listen to the message about the situation and how to proceed

* Pass on the information you receive to your neighbors
* Act according to the messages you have been given.

ENGLISH TRANSLATION:

"Civil Defense

The procedure for the actions of the population on the go signal when at work.

The signal "ATTENTION TO ALL!"

Accompanied by the activation of sirens with intermittent beeps followed by verbal information about The SIGNAL **GO** (*Continued Below:)*

WAYS YOU SHOULD NOTIFY ALL!!:
* Television
* Loudspeakers
* Sirens
* Bell
*Radio
*Howls from businesses and vehicles
*Phone, text message
* Mobile sound-amplifying installations
* Information board
*Social Networks

ACTIONS OF THE POPULATION
(inscriptions on the signs)
- Turn off lights, gas, water, heaters
- Close windows and doors tightly
- Cover gaps around doors, vents with a wet cloth.
- Use personal protective equipment.
- Take cover in the nearest protective structure, buried room or other premises of the underground space, including the subway.
- Report to the assembly area
- Evacuate to a safe area.

ACTIONS FOR:
* AIRBORNE ALARM

* CHEMICAL ALARM
* RADIATION ALARM
* THREAT OF CATASTROPHIC FLOODING

RESTRICTED SIGNAL
* Return to your place of work
* Be prepared for a possible repeat of the civil defense "ATTENTION TO ALL "SIGNAL.""

NEW YORK CITY "NUCLEAR ATTACK AD"

NEW YORK CITY EMERGENCY MANAGEMENT issued a Public Service Announcement for TV telling New Yorkers what to do when a **NUCLEAR BOMB** ***HITS THE CITY!***

IDIOCY

In the video, they tell New Yorkers To Get Inside**. GOOD ADVICE . . .** ***IF THERE'S ANYTHING LEFT STANDING TO ACTUALLY GET INSIDE OF!***

https://youtu.be/N-5d7V4Sbqk

Then, in the height of utter **STUPIDITY**, they tell New Yorkers "If you were outside when the blast hit, **TAKE OFF ALL CLOTHES,** shower and shampoo to wash the radiation off immediately."

THERE WON'T BE ANY RUNNING WATER. The water mains will all be ruptured from the blast and the electric that powers the water pumps will all be off for miles.

But wait, there's more . . . **IDIOCY** . . . . they tell New Yorkers "stay tuned to local media and don't go outside until authorities tell you it's safe." **THERE WON'T BE ANY LOCAL MEDIA.** It will all be blown up. All the TV and radio transmitters will be wiped out!

As if to add insult to injury, they tell New Yorkers **"SIGN UP TO NYC-ALERTS"** (with your cell phone). . .

THERE WON'T BE ANY CELL PHONE SERVICE. The towers will all be knocked down, the transmitters fried by electro-magnetic pulse, and the electric will all be out.

THERE WON'T BE ANY INTERNET SERVICE. All the Internet lines will be blown up and the wireless all offline from EMP or no electricity!!!

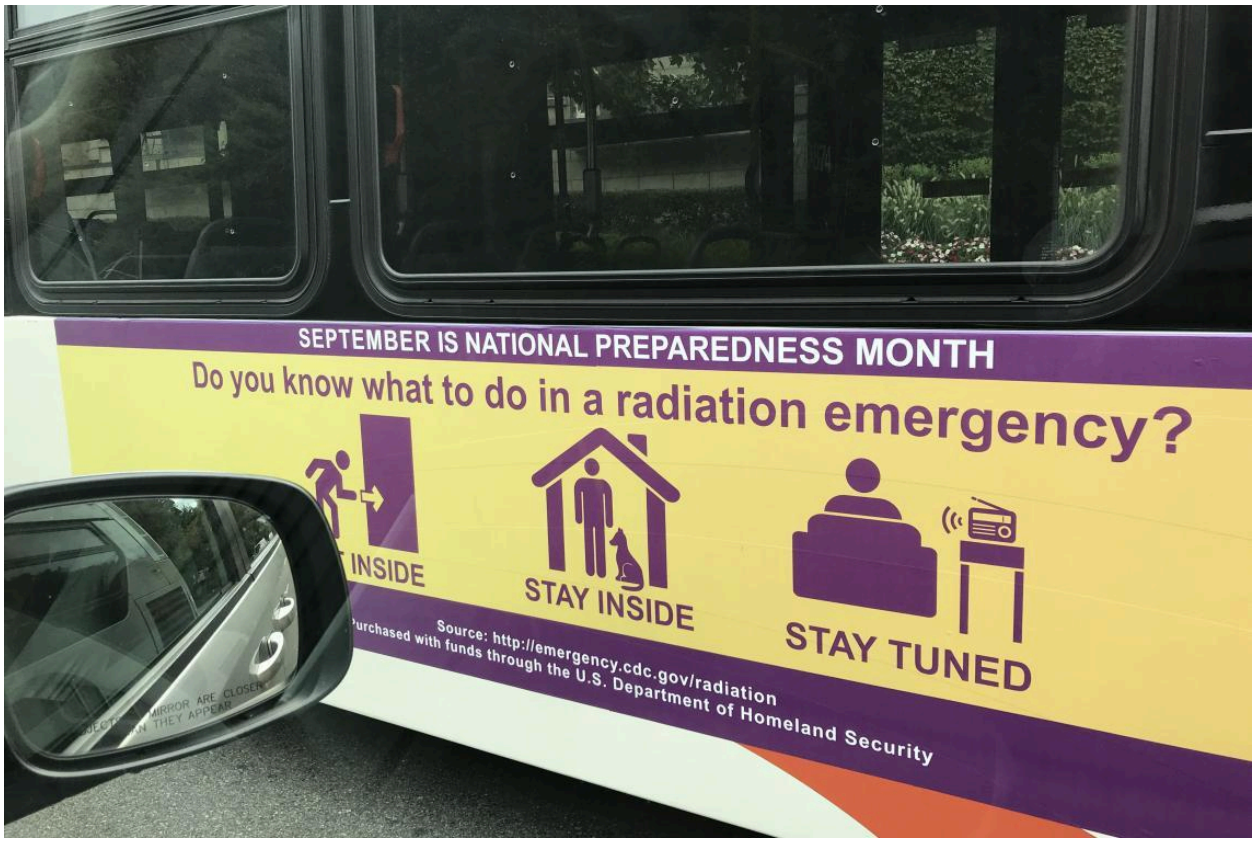

NEW JERSEY TOO!

Many Large Shopping Malls In Upscale Areas Of New Jersey publicly warned people about what to do **IF A NUCLEAR BOMB HITS!**

HERE'S A SIGN AT THE MENLO PARK MALL:

NEW JERSEY EVEN PUT SIGNS ON NEW JERSEY TRANSIT BUSES:

KUWAIT- NUCLEAR WARNINGS

FROM TELEVISION IN KUWAIT, THE GOVERNMENT AND MILITARY IN THAT COUNTRY HAS BEGUN TELLING CITIZENS:

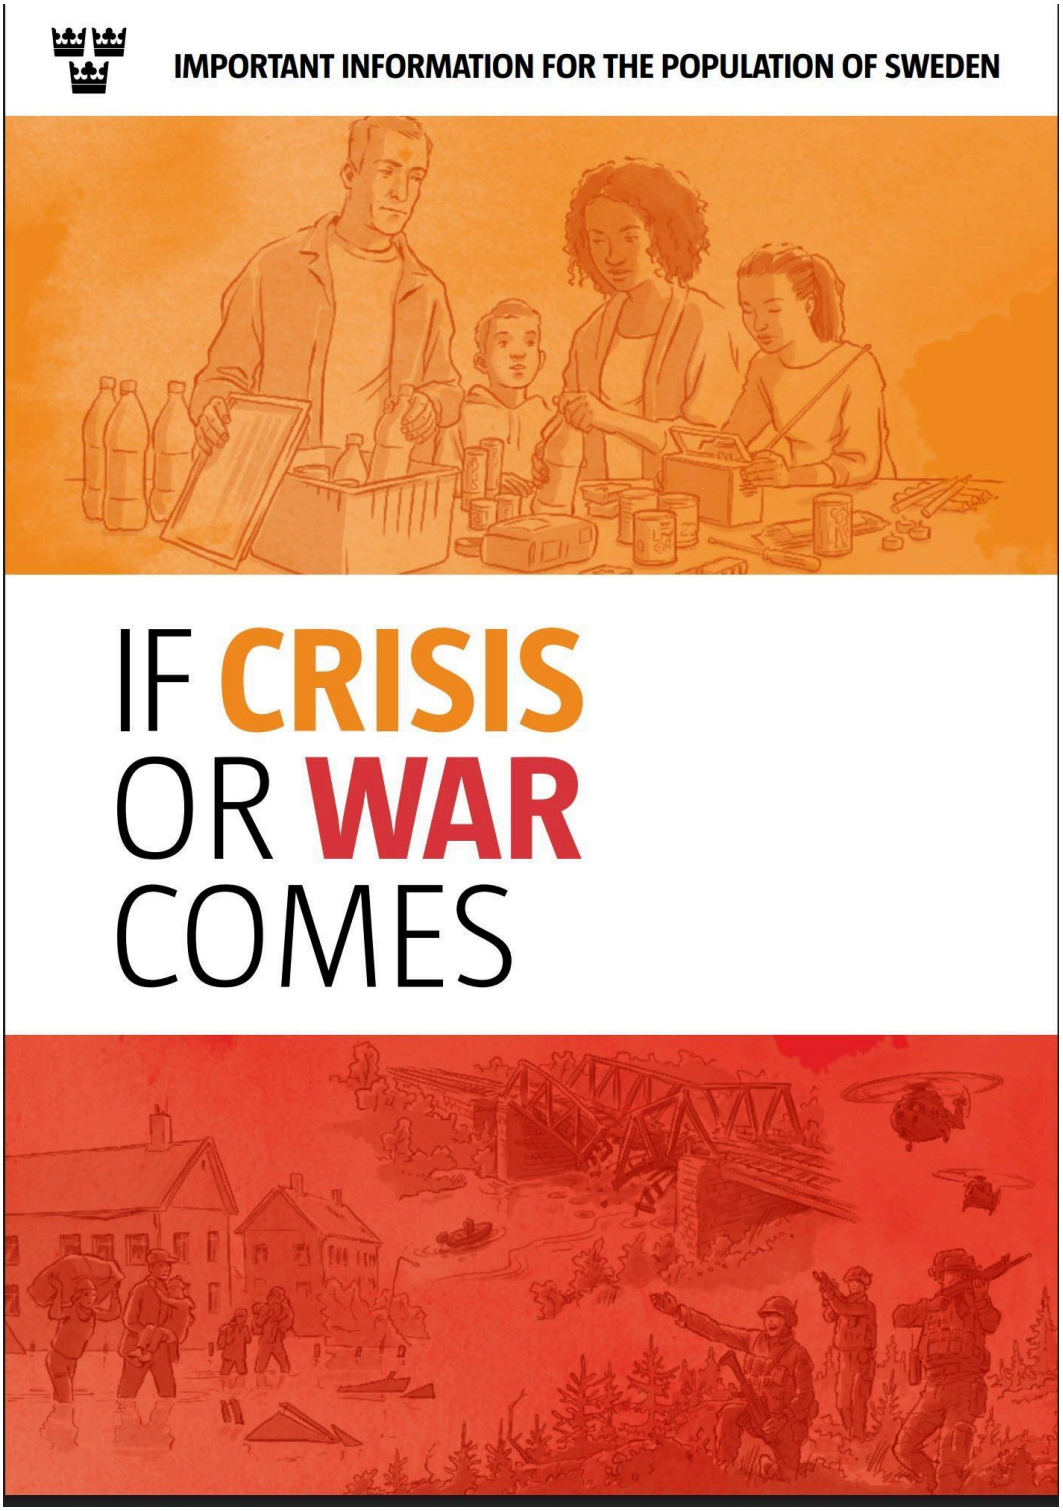

STAY INDOORS — SEAL YOUR HOMES — RADIATION PRECAUTIONS ISSUED

THE INSTRUCTIONS ARE STARK:

Do not leave your homes. Seal all doors and windows. Stay inside until further notice. Officials say there is no immediate need to panic.

But these measures are being introduced as a precaution against possible airborne contamination — including potential Nuclear radioactive fallout from regional escalation.

SWEDEN ISSUED AN ELEVEN PAGE BOOKLET Telling Their Citizens How To Prepare For **"CRISIS OR WAR."**

Here is a direct link to the English-translated version of the whole booklet (Click HERE)

This Week (Monday) People In **IRELAND** ***ALSO GOT A HEFTY MAILING FROM THE IRISH GOVERNMENT:***

This Week (Monday) People In
IRELAND
ALSO GOT A HEFTY MAILING FROM THE IRISH GOVERNMENT:

TAKE THE "HINT"

Governments all over the world are openly warning their citizens to **"PREPARE."** Some talk about war, openly. Others use euphemisms like **"CRISIS"** or **"DISASTER."** The wording is different, but the message is the same: **PREPARE.**

HERE ARE SOME BASICS:

Normally, this content would be behind my Subscription system, for paying customers only ($1 a week, billed Quarterly [$13] –

Sign-up HERE) Because of the extraordinary seriousness of this information, and the reality that every American will be impacted ~~if~~ ***WHEN THE WAR WITH IRAN IS RE-STARTED,*** I am making this information available to the public so they can try to prepare.

NO OTHER MEDIA OUTLET ANYWHERE IS REPORTING THIS IMPORTANT NEWS THE WAY I AM. I report what the "mass-media" simply doesn't. That's why people subscribe to this website and listen to the radio show: News that actually matters!

HAVE EMERGENCY FOOD THAT DOES NOT REQUIRE REFRIGERATION:

Multiple 10lb bags of white rice, multiple bags of beans and legumes

Multiple boxes of Pasta

Multiple CANS of: Meat, Vegetables, Soups, Tuna fish, Fruits, etc.

Multiple JARS of Gravy, sauces, Chicken Stock, Beef Stock, Vegetable Stock, etc.

COOKING

Have a way to cook without the grid. Propane Grill is fastest and easiest. Have spare tank or two of Propane.

HAVE EMERGENCY WATER

1/2 Gal. per person, per day, for 90 days

HAVE EMERGENCY MEDICINE SUPPLIES

You should also get **90-DAY RENEWALS** of any **PRESCRIPTION MEDICINES** you need to LIVE; Things like blood pressure meds. Replacement Thyroid Medicine for those whose Thyroid has been taken out by surgery or whose Thyroid doesn't work too well anymore. **CAUTION:** you probably have to pay for the renewals yourself because Insurance likely won't pay for a Renewal until you actually need it. If you DO buy your own, rotate them into your normal prescription routine so you USE the supply before it expires.

This way, ~~if~~ ***WHEN SUPPLY CHAINS BREAK,*** you have at least a 90-day window to get-by while supply-chain systems get fixed. That is, of course, IF they get fixed.

HAVE A WAY TO GENERATE ELECTRIC

Have an **EMERGENCY GENERATOR,** big enough to power your refrigerator(s) and furnace. (DO NOT RUN AN EMERGENCY GENERATOR INDOORS; THEY GIVE OFF CARBON MONIOXIDE GAS WHICH WILL KILL YOU. Always run the generator OUTDOORS.)
Have **FUEL FOR THAT EMERGENCY GENERATOR** (Store the fuel lawfully in accordance with local Fire Codes.)

Have a **FIRST-AID KIT** with loads of 4"x4" Gauze pads, "Cling" wrap, and Tape, for cuts, scrapes, wounds, so you can self-treat injuries until you can reach professional medical care.

Have a supply of **OVER-THE-COUNTER (OTC) MEDS** for common needs. Things like:

Pepcid AC tablets, Pepto Bismal, or Mylanta for Heartburn.
Pain Relievers like Aspirin, Tylenol (Acetaminophen), Advil (Ibuprofen), Aleve (NSAID).

Allergy Meds like Benadryl, Claritin, Allegra, Zyrtec, etc.
Milk of Magnesia or Swiss Kris for Constipation.
OTC Cough Medicines

COMMUNICATIONS GEAR

Have a CB Radio (No License Required) with Antenna and Coax Cable to communicate locally

Have a HAM Radio (License needed) to either communicate over greater distance, or to LISTEN to shortwave broadcasts for news and information.

Have a Portable AM/FM/SW radio with Spare Batteries for news and info

Have **FLASHLIGHTS** for each room of your house or for each family member, and plenty of **SPARE BATTERIES** for those flashlights.

If the grid goes down, communications go down. You NEED comms, if only to be able to hear what's going on.

The items above are a bare minimum and these lists are NOT complete. They will vary for each of you, to your own needs, wants, tastes, and financial ability.
Whatever you do, **DO SOMETHING** because things appear to be heading into a very bad time for all of us and you cannot rely on anyone but yourself when the going gets tough.

PREPARE
