On November 16th, 2018, a rule change made all subsequent runs get timed by RTA instead of IGT because of reset exploit.

Unofficial Any% RTA world records:

In September-October 2018 I didn't own a computer and didn't record my runs yet, but recorded my times. As they were unrecorded, they have no proof for RTA, so I would not count them as verified runs, but they can be a side note in the category's history. I did take a level select screenshot from my 30:48 with its in-game time. AntLadders's 11:34 wasn't recorded as he was derusting.
