Togetherring Space Steward

The Driver:

The Togetherring Space is the first node many visitors interact with. It needs to be warm, welcoming and nurturing. Visitors need to have someone they can connect with immediately who is willing to offer advice and give them a first taste of the community while also caring for the animals and the space, identifying projects that need to be done and ensuring they are activated and completed.

Ongoing projects, a buddy to hang with, projects to get involved with right away from art to renovation, outreach, automatic friends, tour

The Role:

Someone who is empowered to make decisions around the organization, layout and function of the Togetherring Space. This person is the first point of contact for many new community members and visitors, so they act as a guide to understand the community and make people feel welcomed and safe and loved. This person is able to hold space for those who need to talk or need company or refuge, and can adjust their vibration to support that of anyone in need: offering meditation, body work or a fun conversation. This person will care for the community cat and future kittens, and is responsible for ensuring they are cared for until the role is passed on. This person will keep the space clean, organized, keep the fridge pantry stocked with healthy snacks and identify and implement ideas for enhancements to the space.

In exchange, they receive their rent and a small stipend of \$100/mo for supplies and food, which is supplemented by donations.
