SKILLS

JavaScript | React | Redux | Node.js | Express | REST API | CSS3 | HTML5
PostgreSQL | Mongoose | MongoDB | Docker | Git

WORK EXPERIENCE

Software Developer Intern - Adobe

May 2019 - August 2019

Lehi, Utah
Mobile Experience Team

Server & Baker - The Cheesecake Factory

Feb 2009 - May 2018

Irvine, CA & Henderson, NV

PROJECTS

Project Spica

JavaScript | React | Node.js | Express | MongoDB | Git

Project Spica is an Adobe service that allows you to store data in a key value pair format without the need to spin up a server.

- Used primarily for UI projects to store User and Organization settings on a database.

Cat-Chase.herokuapp.com

JavaScript | React | Node.js | Express | MongoDB | Git

Cat-Chase is a collision detection game. Choose your cat and catch fish while avoiding the dog chasing you. As you accrue points, the dog gets faster.

- Implemented React Context to utilize key functions in multiple components.

Book2Shelf.com

React | Node.js | PostgreSQL | Redux | Express | Sass

Book2Shelf gives users the ability to browse a selection of books and add them to their virtual shelf. Users also have the option to add new books to the database, edit or delete books.

- CSS Grid used to make the site responsive for mobile or desktop users.
- Database calls and queries handled with Massive and PostgreSQL.

Typing-Trainer.com

JavaScript | React | Node.js | Express | Massive | PostgreSQL | Git

Typing Trainer is a web application built to help software developers practice difficult characters used frequently in coding languages as well as increase accuracy and speed.

- User passwords hashed with Bcrypt and user data is stored using Redux and Express Session.
 - ChartJS shows a visual representation of user accuracy and character per minute.
-

EDUCATION

V School - Salt Lake City, UT

Web Development - Adobe Digital Academy Scholar

DevMountain - Provo, UT
