

K20CarMeets RULES & How to Join

If any of these rules are broken will be warned once. If you are warned again you will be kicked or potentially banned (depending on what rule you broke)

PLEASE READ THE FULL DOCUMENT TO AVOID BEING KICKED

Joining the crew:

1. Request to join: <https://socialclub.rockstargames.com/crew/k20carmeets>
2. Join our Discord server: <https://discord.gg/KazzaTwo>
3. Type ?pc, ?xbox and/or ?ps4 into the “#bot-commands” chat for what platform you will be attending meets on.
4. Mention an @Admin OR a @Moderator in the #car-meets channel and *kindly* ask them to accept you to the crew by providing them your social club ID. **Waiting to be accepted will not work as we do not accept every request.** If none reply, try to ask right before a meet starts which is announced in the #meet-announcements channel.
5. Read the rules below and keep an eye out in the #meet-announcements channel in the discord server for any car meets that may be happening. (Recommended that you keep notifications on for this channel)

Lobby Rules:

1. Listen to the host of the meet and crew commissioners at all times, if unsure check crew hierarchy.
2. No unauthorised mods allowed in the lobby. If you are caught modding (mainly using destructive mods) you will be banned. **Some non-destructive mods still cause lag within the lobby, so please refrain from using them.**
3. Keep your car clean at all times, if you crash please repair or call it back in.
4. Do not enter passive mode unless instructed to, you should not need it if you drive correctly.
5. When we are drag racing, there will be two designated lines and a flagger. Please, do not create any more than 2 lines or push to the front of the queue. **If you are racing a car that is an unfair race or want to race another person**, please pull out of the line and go to the back of the queue.
6. **DO NOT CRASH.** Drive as slow as you can when cruising and entering parking locations, leave space between cars. During cruises, you **must** drive realistically. No crashing, no overtaking, tailgating other players or ‘brake checking’ people behind you. Follow the host and drive in **single file**, do not attempt to push to the front of the queue, if there is no space, go to the back of the queue.

CONTINUED

7. Please bring cars that fit the theme of the meet with **tasteful modifications**. (No chrome, neons etc.) If your car does not fit the theme, you will be asked to change it however all styles of cars are allowed to the meet **as long as they are clean** and fits with the current theme decided by the host.
8. **NO KILLING**, if you are killed by somebody and you believe it to not be an accident, please tell one of the leaders. If you 'revenge kill' and it starts a war between both players, **both** of you might be kicked.
9. **NO COPS**. If you have the cops, please *immediately* 'kill yourself' from the interaction menu as soon as possible. If you do not do this and the cop cars cause damage to player's cars, you will be warned or **kicked**.
10. If you want to stance or lower your car, please do so away from the meet and other players.
11. **NO AIRCRAFT** allowed at the meet. We ask you if you could please keep aircraft away from the car meet area and try not to use them at all during the lobby.
12. Although push to talk is not required for the discord chat, **please don't scream or shout down the mic** or you may be server muted in the Discord chat.

If you see any rules broken in a lobby, please send screenshots and/or video including their in game ID to KazzaTwo#0122 on Discord to report a player.

If you are kicked from the crew please contact me on Discord to appeal to be re-accepted. If you are banned, you will never be allowed back in the crew.
