

Starter Pack for Every Language

We've selected the most useful phrases you can use to start speaking and maintain your conversation in your Target Language 90% of the time.

There are two possible usages for this guide:

1. Creating a new PhraseSet for your **target language**: if there isn't one available yet, you can book a session with a teacher or ask a friend to record these sentences for you with the app;
2. Creating a new PhraseSet for your **native language**: if you would like to help others learn your native language, you can record them yourself!

These sentences are just guidelines and they should be adapted to the language of the new PhraseSet. When recording these sentences, feel free to shorten, change or apply extra words to them. You can also add or remove phrases when that makes sense.

Tip: Since the Lingophant app encourages its users to study 7 phrases a day, we recommend you to prepare PhraseSets that involve at least 7 sentences.
