

Chronically Queer stands for and in solidarity with the movement for Black lives. As non-black queer disabled organizers, we know that we have work to do. We know that as a group we are all multiply marginalized in different ways. We are committed to anti-racism. We will acknowledge when we have done wrong and will always continue to educate ourselves. We strive to take action to support Black lives and promote radical change

We have compiled a list of resources that center how we as non-black disabled people can fight for black lives and alongside our Black disabled kin.

If you have more resources you would like us to add to this list, you can send them to our email at chronicallyqueer.austin@gmail.com

How To Protest If You Are Disabled and Can't Show Up to Rallies:
