PROMPT

1. For your discussion post, choose a recent **video** or **news article** from the course RSS feed. You can look for news relating to companies providing services or products, populations affected by the issues raised in this week's materials, or even interesting tutorials or how-to guides that help address a specific problem.
2. Provide a brief summary of your findings, explain how it is relevant to our class topic, and provide a hyperlink or embedded item to share the resource with your peers.

CURRENT EVENTS IN AI AND MARKETING

As technology evolves, it becomes harder to tell 'real' AI from marketing

A race for corporations to stay competitive means AI-driven tools are everywhere, but it's easy to get lost in the hype, technologists say.
