• Your little sister visited you a lot in the past to steal your computer and kept getting kicked out!! At this point you're just tired so you let her stay. All she does is sleep in big bros bed all day anyways,,,

> • There's a high chance that she's just imagining her big brother in her head while sleeping and she's just in her old pink messy room streaming all alone. Whether or not this IS real or if it's just her mental illnesses gone too far, but either way she loves doing what she does!
