Please watch this video to understand how socialists and communists have gained control in the USA and around the world. This also shows the way to reverse the trend. It is how to understand the green extremist and manmade global warmist movement. Which opposes fracking, even though it is the best solution to reducing CO2 emissions, air pollution, and helping poor people worldwide.

.2 Dr. Benjamin Carson's speech at the National Prayer Breakfast.

Supposedly controversial, because it might have offended President Obama and, some thought, was too political. Only, toward the end, are a few comments that are against Obamacare and for proportional taxation. Please watch:

- We need federal E-Verify or state by state E-Verify:
-
- Dave Camp, (R) the Chairman of the powerful Ways and Means Committee, is refusing to release his hold on the 50-state E-Verify bill. His committee has jurisdiction over identity theft. He is unwilling to allow the E-Verify bill to stop illegal aliens from stealing Social Security numbers to obtain U.S. jobs.
-
- If you are really feeling energetic, why don't you put in a phone call to one of Mr. Camp's offices:
-
- 202-225-3625 Washington, DC (Ways & Means).
- 202-225-3561 Washington, DC (personal office).
- 202-224-3121 Washington, DC (Capitol switchboard).
- 989-631-2552 Midland, Mich. (district office)
- 231-929-4711 Traverse City, Mich. (district office)

- SB1070 is merely a federal law, which the state has adopted as it's own. The federal law doesn't cause racial profiling and neither will the state law. The conflict arises because the feds don't want to enforce it's own federal law. The Supreme Court will support AZ, 8 - o. It's NOT going to permit the federal govt. to NOT enforce federal law.

● —

As well intentioned as that notion is, the desire to have the government provide for those who can't provide for themselves, the reality is criminal.

...

Dear President Obama,

Mr. Obama my relatives escaped Russia to avoid being slaughtered, and on my mothers side were here during the founding of the United States of America. I exist and live in the greatest nation on the face of the Earth because they suffered, fought for, and built this country. I will not stand by and allow you and others of your ilk, to divide us, only to destroy the very foundation that this society rests on. That foundation is the successful evolution of the immigrant into a flag waving God fearing American, we've got a few people in this country who need a little reminder of this, this is my effort to do so.

Immigration, or the perverted form of willful blindness that now exists, is a complete failure. What brought us to this point is nothing more then one political party trying to best the other in the vain search for political power.

As each political party vie for territory and the perfect con, or these days, “narrative,” the scars from the battle begin to show. Pretty soon “We The People” begin to take matters into our own hands. Arizona’s Governor Jan Brewer is a great example, Hazleton Pennsylvania and various school systems that are desperately trying to maintain or fix a broken melting pot are others. Americans have a knack for adapting and overcoming liberal stupidity on a local level.

Lets get back to the basics. America will always need and want immigrants; that is not up for debate with this American. The issue is something very evil called a hyphen. Some view it as a way to justify their differences still other’s see it as justification for perpetual victimhood. I am very happy that the men who protected our B-17’ and B-24’s in World War Two saw themselves as Americans not African-Americans, I spent time with my Grandfather because of their valiant service. To me that hyphen is pure evil, that the right tyrannical leader will one day use to divide us. That day is today.

What we need is an immigration policy that does not perpetuate division, but one that perpetuates unity and common cause to help us in our wider mission of forming “a more perfect union.” To accomplish this we must lose the hyphen once and for all, speak the English language, pledge allegiance to the flag, and believe in God, no matter how one chooses to express it. Then we must welcome people into our melting pot wanting to build their lives in peace and participate in our system of free enterprise. We welcome them as Americans only looking for an opportunity, not as a hyphenated people looking for a handout to aspire to live as huddled masses in government housing.

Your effort to divide us will not win the day Mr. Obama. Mine will. Why? Because history and experience has shown, while messy and at times dangerous, it works. It works so well in fact a nation of immigrants in the new world saved the old world from evil, not by being divided, but by being unified by a common American “can do” culture. To continue on your path of racial division can only lead to our destruction.

We will not let that happen.

Respectfully,

Joe Doakes

There have been four previous Electoral College "misfires" where the candidate who won the most popular votes didn't become president — in 1824, 1876, 1888, and 2000. This year, if less than 1% of the over 100 million American voters switched from Democrat to Republican in the swing states, history could repeat itself.

335. Abuse of the disability system.

- **Nancy Oliver** It wasn't all that long ago that you had to go through a kind of hell to get disability. It was standard to be refused, regardless of your disability, when you first applied. Then you had to find a lawyer, and all kinds of proof of your disability, medical exams by

their doctors, etc. It was hard to get. Even then you were reviewed now and then. It was almost as bad for food stamps and rent, not to mention how long you had to wait, and the tremendous amount of paperwork. The amounts were much less as well. My parents went through all that for almost 2 years to get SSI for my sister when a severe illness caused brain damage that made it impossible for her to take care of herself by working. I also had a friend who really needed housing, and had been on the waiting list for 5 years when she died. The food stamp amount this lady was getting was crazy as well because in the past it was \$150 for an adult, and \$100 for each child, so she would have had to be married with 3 children to get \$700. It was only meant to supplement your groceries, not buy all of them, and any help you got required you to look for work, report your search, and show you were trying to do things yourself. The housing was so low, and so few places took it, that you didn't wind up in a very good place, either. The lady I mentioned who died wasn't able to get food stamps or any other help even though she got less than \$1300 a month in social security, had to pay her own rent and utilities, and had had 2 strokes and had medications she had to take, which medicare didn't pay for, because they said she made \$10 more a month than the limit to get help. She had to decide which prescriptions she could afford to fill and still be able to eat. Sometimes she also had to skip meals because her prescriptions were so expensive. I've seen so many seniors really struggle to get through each day because they couldn't get help, and now things are just handed out? And in large amounts? That doesn't even make sense.

454. LT. GEN. W.G. BOYKIN WARNS OF ENGINEERED ECONOMIC COLLAPSE AND INSTIGATED STATE OF CRISIS AS PRETEXT FOR MARTIAL LAW AND A PERMANENT RESTRUCTURING OF AMERICA INTO A MARXIST DICTATORSHIP POLICE-STATE (YEP, THIS IS REAL):

If you're finding yourself dismissing this as just a "conspiracy theory" without actually being able to refute any of the arguments and evidence presented, it is far more likely that your fragile psyche is simply incapable

of coming to terms with reality.

US national debt has soared under Obama by a whopping \$5 Trillion after just 1 term (that's more than Bush's deficits in 8 years), and with no slowdown in sight... no one is THAT incompetent unless they're seeking to intentionally derail the US economy!

► DHS INSIDER: "There won't be any meaningful deal about the fiscal crisis. This is planned ... The coming collapse of the U.S. Dollar is a done deal."
