Grading

Maximum Grade

100 points

You can create as many journal entries as you want and can comment on any of them. You can comment on other comments, so you can respond to any that your instructor left.

To create a new entry, click or tap on the entry box underneath the “Entries” section. You will be able to use the standard online editor to create a response. You can attach files just like you would a normal assignment. You will be able to see the word count of your response until you post your entry with the “Post” button at the bottom of the text box.
