

Based on [WoodsCamp tool](#)

"Stay tuned, interactive map coming soon."

Use [this](#) map or a similar one and color the 3 regions we are working in. Accra, Ashanti and Volta.

Then, with some design charts out some text that explains we are focusing on these three regions first, even though businesses across all 16 regions can sign up.

The text should also explain that we are accepting business across all sectors and should list the subsequent 11 sectors.

Maybe there is a graphic and maybe it depicts the sectors and gives each definition.

The Pathways to Formalization Program is currently only operating in Accra, Ashanti, and Volta.

However, businesses from all 16 regions are more than welcome to sign up.

We welcome businesses from all 11 sectors.
