Have you any previous experience as staff on any game network?yes

Why do you want mod:I want to be mod so i can make badlion a fun and safe community and i saw players that are not enjoying because of hackers.I dont think that is fair for the people that want to just have fun thats why i want to be mod.

What do you think you can bring to the mod team:i can help the mod team by helping out because the mods need help for all they do and i think i can make it so we can gain the badlion population. i will see what can make badlion better and take out all the hackers and people that want to just cheat to get attention and to

get on the leaderboards because badlion is about bieng fun and i think if i be mod i can really help out on that.
