

Below are steps on creating and using Pear Deck in your classroom. Pear Deck is a great program that allows your presentation (Google Slides or PowerPoint) to be interactive by the student.

## Creating a Pear Deck in Google Slides

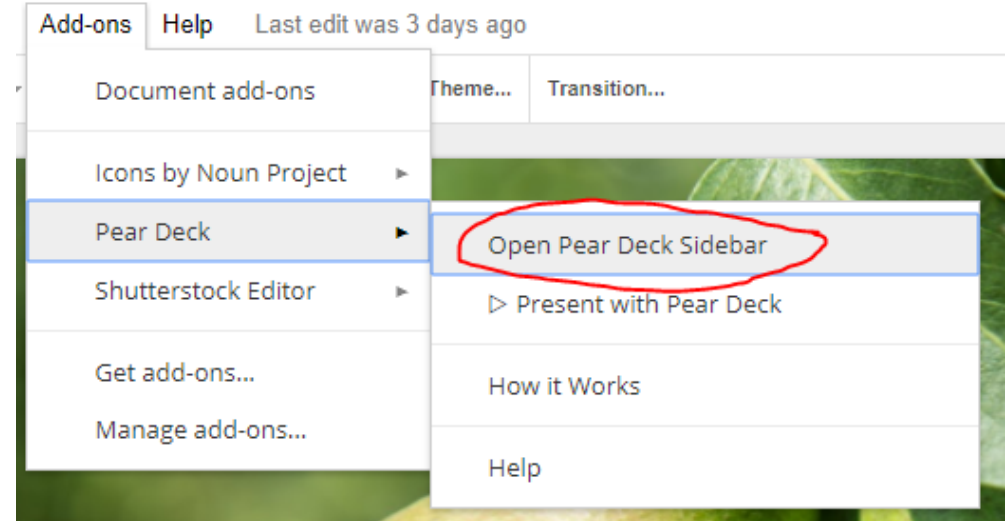

### Getting Pear Deck in Google Slides:

- Open up a Google Slide (this could be from scratch or a premade presentation)
- Go to Add-ons in the top menu
  - Select “Get Add-ons”
  - Click on [Pear Deck](#) and select the blue “+ Free” button.
  - This will add Pear Deck to your Google Slides

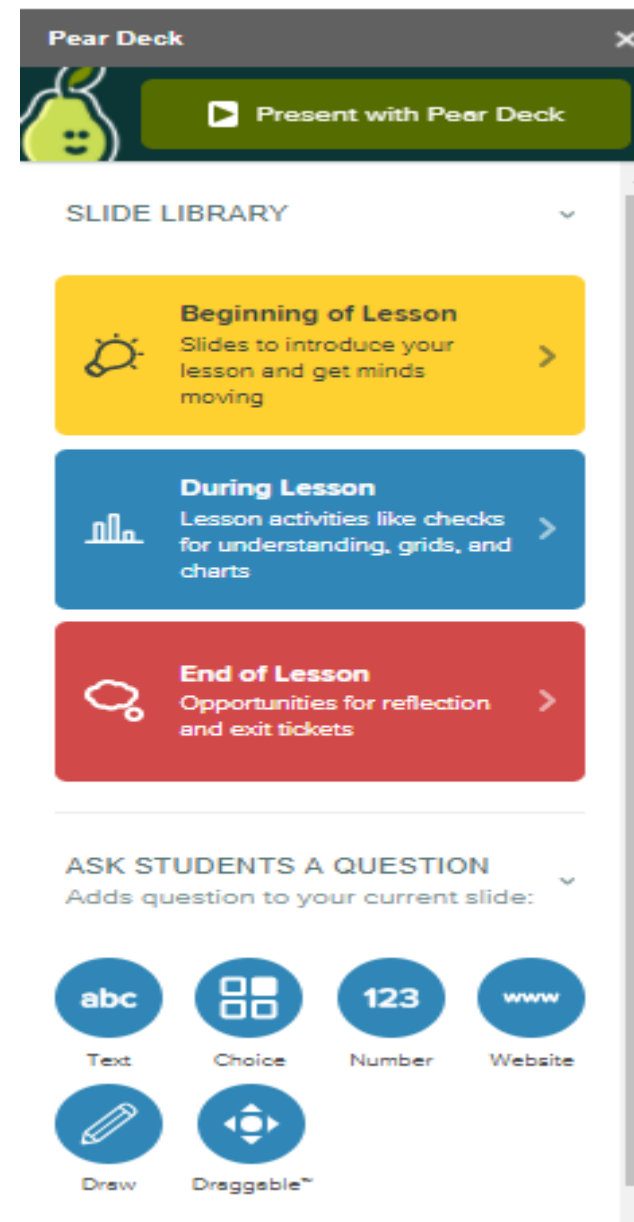

### Using Pear Deck in Google Slides:

- Click on a slide you want to make interactive.
- Select “Add-ons” and click on “Pear Deck”
- Click on “Open Pear Deck Sidebar
- This will open up a menu on the right
  - Many options will be available. See description below for each interactive option.
  - Please know that only one interactive can be done per slide and the interactive feature can only be seen on the students end.

### Explanation of the Sidebar:

- The sidebar is broken up into 4 sections
  - Beginning of Lesson
  - During Lesson
  - End of Lesson
    - All of the first three section will create a new slide with an interactive
  - Ask Students A Question
    - This section will allow you to make the side that is shown an interactive slide

### Draggable:

- This gives students an option to take a icon and drag it into a location on a picture, graph, map or any other type of image.
- A teacher can create multiple draggables.

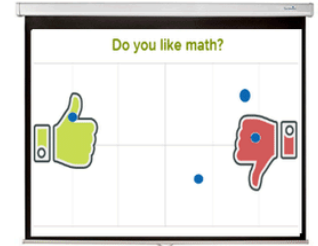

Student View

Teacher View

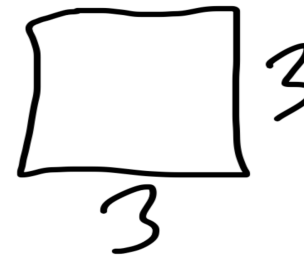

Class View

### Drawing:

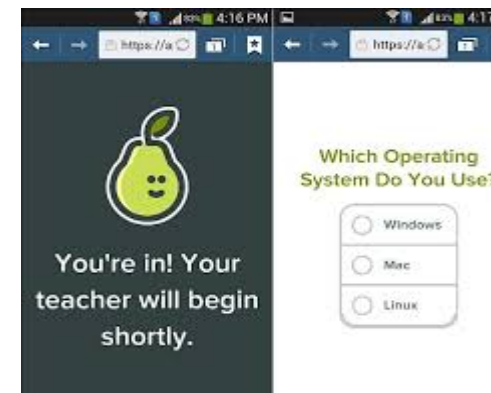

- Students can draw on the slide using an array of colors and sizes with this option
- Teachers can add pictures, maps, graphs and other images like the draggable feature.

Draw a Post It note....estimate and add the dimension in inches.

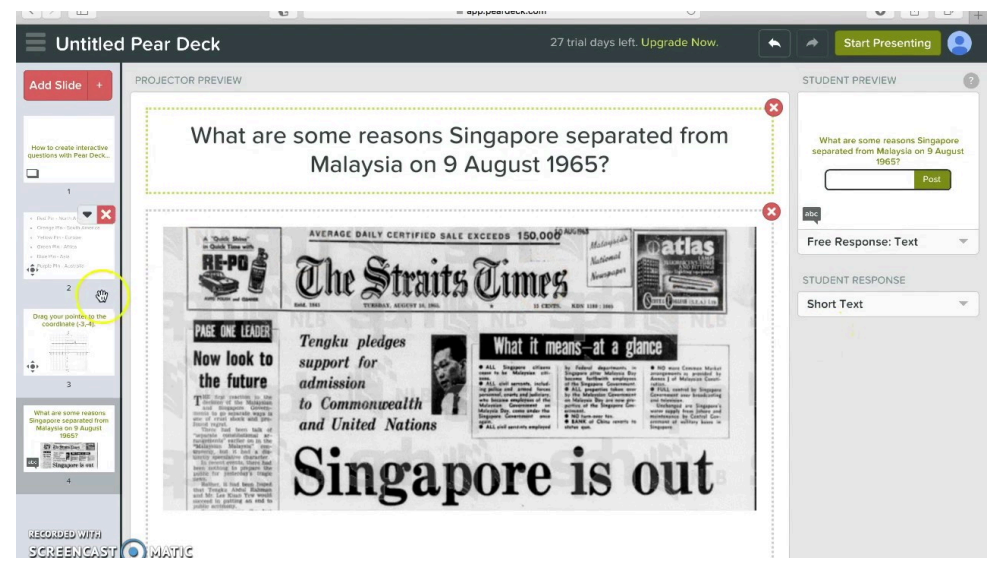

### Text, Number, and Multiple choice:

- This feature will make the slide it is assigned to a question based slide.
- Results can be exported to a spreadsheet for grading.

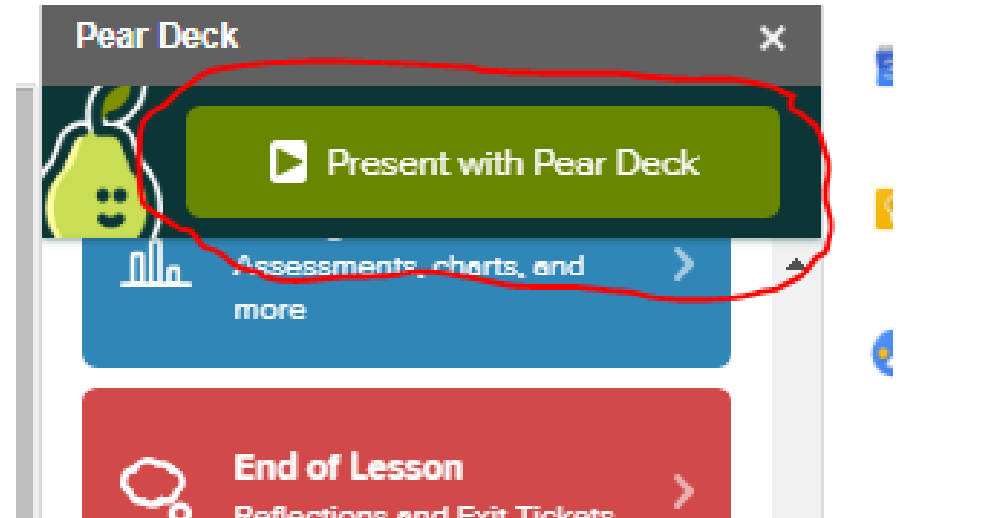

## Web Slide:

- Adding a web slide will give student an opportunity to go directly to a site that was designated by the teacher.
- Teachers can add YouTube videos, Google Maps, Forms, and many other links.
- Please know that it is best to test the link before sharing with your students.

## Presenting your Pear Deck Slide:

- Click on “Present with Pear Deck” on the right menu
  - For your slides to be interactive you must present with this option
  - If you present with the standard Google Slides present the Pear Deck interactives will not be present.

# Setting up and Viewing Student Data From Pear Deck

## Initial Setup:

- Go to [peardeck.com](https://peardeck.com) and click the green “Log in” button in the top right of the browser.
  - Sign in as a teacher.
    - This will take you to all of the decks you have created and presented
    - On the left hand side is a menu with icons stating
      - Home
      - Sessions
      - My Account
      - Add-Ons

## Sessions:

1. When selecting this feature a teacher can
  - a. See all their Pear Deck Sessions
  - b. Participants in each session
  - c. The teacher dashboard view
  - d. Options to “Reopen session,” “Rename session,” “Archive Session,” view “Takeaways,” and “Export to Spreadsheet.”
    - i. Takeaways are the Google Docs created for students with the slides and notes taken during a session.

SESSION	TITLE	PARTS	DATE
Slides Demo Dec 2017	Feudal Japan Example	6	Today at 10:34 AM
Social Studies 5-8	Feudal Japan Example	16	Tuesday, 10/26, 1:21 PM
Admin Council Nov 2017	10 Minutes of Tech (November)	35	Tuesday, 10/25, 10:36 AM
Practice Pear Deck	12 Dept Leads	2	Friday, 10/17, 12:30 PM
CC-45 2017	BA - Strong Password	12	Wednesday, 10/16, 8:05 AM
Unnamed Session	BA - Strong Password	1	Tuesday, 10/14, 2:47 PM
CC-45 10/14	BA - Strong Password	10	Tuesday, 10/14, 1:59 PM
Unnamed Session	Untitled Pear Deck	1	Monday, 10/13, 1:57 PM

## Add-Ons:

- This important feature allows greater connectivity with you and your students. These items must be allowed before presenting a Pear Deck.
  - Google Classroom
  - Classroom Climate
  - Takeaways

ADD-ONS

**Google Classroom**  
Classroom helps Google Apps for Education teachers save time, keep classes organized, and improve communication with students. Turn on this integration to invite Classroom classes to Pear Deck sessions, fast and easy.  
☒ **Enable Push Notifications for Students**  
[Deactivate This Add-On](#) - [Details](#) - [Google Classroom Website](#)

● ACTIVATED

**Classroom Climate**  
Invite students to think and reflect on the learning process. Classroom Climate helps you see how mood affects the lesson on an ongoing basis. Pre-lesson, students can reflect on their own mood. Post-lesson, students can reflect on how they thought the lesson went.  

Check for mood only ▾

**Takeaways**  
At the end of your session, publish a Takeaway Google Doc for each student that contains every Pear Deck slide and that student's response. Each student's doc will be created in your Drive, and shared with that student automatically so you can give feedback and collaborate individually.

## To present from your phone/tablet:

- Make sure your presentation is being projected and the code is shown.
  - Open up a web browser on your phone and got to [peardeck.com/dash](https://peardeck.com/dash).
  - Sign into your district account.
  - You then can present from your phone

To find already created lessons developed by the Pear Deck team go to [peardeck.com/orchard](https://peardeck.com/orchard).
