### **Data-based individualization (DBI)**

Data-based individualization (DBI) is a research-based process for individualizing and intensifying interventions through the systematic use of assessment data, validated interventions, and research-based adaptation strategies. The DBI process includes five iterative steps:

- Step 1: Validated Intervention Program
- Step 2: Progress Monitoring
- Step 3: Diagnostic Data
- Step 4: Intervention Adaptation
- Step 5: Ongoing Progress Monitoring
